this book deals with the complexity of art by focusing on the singularity of the work of art gathering a selection of writings in art theory and semiotics it explores the question of apprehending art from its perceptual aspects to aesthetic comprehension and understanding theoretical enquiries focus in particular on the dynamics of the perception of forms the semiotic value of colour the aesthetic phenomenon of empathy the function of vision in relation to other senses and its faculty to lead in a substantial way to the

embodiment of sense these theoretical points are constantly observed with reference to the analysis of works of art especially from the beginning of the modern era when a renovated psychophysical approach oriented the evolution of contemporary aesthetics research into art theories sheds light on how differentials in topologic positions dimensions relationships and tones contribute to the arising of forms and colours in perception and affect the perceiver the essays presented address in different ways the emergence of sense by conceiving it as deeply anchored to the dynamics of perception in addition to the cognitive disposition and knowledge regardless of whether or not the subject artist or beholder is aware of these processes through in depth analyses identifying to what extent the aesthetic moment builds on perceptual and semiotic processes works of art are revealed to be singularities reflecting the correlation with morphodynamics in the sciences

in the dominant world view of the western middle ages *natura* evoked divine power as manifested in creation nature was an all pervasive force synonymous with god and his visible handiwork but also a cosmic principle associated with fate and predestination in the neoplatonic tradition this volume of student essays tackles nature in a range of physical and metaphysical guises always centred on its representation in medieval english literature it contains studies of the visible natural world in elegiac homiletic and apocalyptic literature but it also addresses other faces of nature from the naked human form to the medieval reception of ancient ideas about free will and closes with a comparative analysis of the nature of wisdom in old english and the lord of the rings

the beginning bass singer with his range and tessitura at the bottom end of the scale of voices has unique difficulties finding suitable vocal music which is often very frustrating for him and his teacher as the young or beginning bass works and waits patiently for his voice to develop appropriate vocal literature needs to be found which is within his present range and tessitura to address this problem this new book lists selected songs carefully chosen from the repertoire with annotations some songs given as an illustration or example of what is appropriate are presented in their entirety each of these has its own background material complete with interesting biographical information and tips on interpretation if the song is originally in a foreign language a suitable english version is given as well in addition the selected entries provide full access to suitable material annotations include composer title range tessitura tempo meter difficulty source publisher and pertinent comments also includes indexes by composer title and publisher
