giving people insight into themselves in that it is addressed to those who want to think about their lives relationships with others and how western culture has arrived at the postmodern world this book examines seven different worldviews that have become dominant for periods of time in the history of western culture the author explains that although all worldviews share the same structure and characteristics they vary markedly in their contents further a worldview molds those entering it after its own image those readers who identify their own assumptions about the nature of reality what it means to be a human being and the truth will gain insight into themselves and identifying the assumptions held by others on these matters will give the reader insight into them the problem in the postmodern world is that we live and work with people who live in these different worlds that situation has invited disagreement and conflict which unresolved has led to the chaos that is characteristic of our time the solution before the nations of the west is that each citizen must grant to all others the same rights to life liberty and the pursuit of happiness he or she claims for him or herself

americas revolution against exploitation the book suggests that these postmodern times may well pass by america that it will be stymied by the legacies of a post industrialism in which a form of power knowledge was institutionalized in corporate embodiments swollen with the bureaucratized complacency that defense related contracting induced in organizations remote from competitive struggle in a consumer market place it is now clear that the post industrial society was a knowledge based society shaped by the requirements of the cold war and the warfare state it was these which materialized the shift in organizational social relations from an industrial epoch founded on exploitation to one in which value became increasingly fused within the unity of power knowledge condensed within the global bureaucratic corporate frame america won the cold war but is clearly in danger of losing the aftermath not to the old adversaries but to nations which were not even admitted to the cold war game as equal players most noticeably japan but also germany the powerhouse at the center of the european community as well as the newly industrializing countries of east asia statutorily of course the first two were not allowed to play as part of the cold war settlement at yalta exclusion spawned different strategies premised on structures which were and had always been institution ally distinct what is to be done boje and dennehy are quite clear first there has to be a realization that the recipes of modernism were epoch or era specific and may be past their use by date in some areas of organizational life second that for as long as the lenses through which we focus on organizationallife are made to modernist specifications so that they focus on variables such as formalization standardization centralization etc as the strategic focus for research and teaching we will be condemned to doing the time warp over and over again stuck in the modernist frame while the spectacle outside turns ever more postmodern third that postmodernism offers an integrative focus which will aid us as teachers students researchers and practitioners in overcoming the excessive differentiation which has fragmented our intellectual and praxeological communities fourth that in doing so it will serve to re vitalize the study of management and organizations by opening it up to the cutting edge of contemporary social science currents if the hypotheses and argument that the authors advance are substantially correct then we stand at one of those moments in history when the urge to resist and understand the limitations of the old slogans is critical americas revolution against exploitation the story of postmodern management achieves this resistance and this understanding sufficiently to reconfigure our grasp of the modern condition in which we have been while pointing us towards what we may become one should salute the book as a contribution to one of the projects for the future one which because of its easy style deserves to secure postmodernism a good name in management and organization theory circles

the author presents a two tiered analysis that views postmodern legal thought as both a collective intellectual movement and as the work of particular theorists notably friedrich nietzsche michel foucault jacques derrida francois lyotard and richard rorty he concludes that even though postmodern thought does not give rise to a normative theory of right that can be used as a framework for deciding cases it can focus attention on genealogy and discourse and can empower those who have been denied a voice in the legal system
