in recent years islam whether via the derivatives of political islam or islamism has come to be seen as an activist force in social and political spheres worldwide what such representations have neglected is the strong countervailing tradition of political quietism political quietism in islam holds that it is not for muslims to question or oppose their leaders rather the faithful should concentrate on their piety prayer religious rituals and personal quest for virtue this book is the first to analyze the history and meaning of political quietism in islamic societies it takes an innovative cross sectarian approach investigating the phenomenon and practice across both sunni and shi i communities contributors deconstruct and introduce the various forms of political quietisms from the time of the prophetic revelations through to the contemporary era chapters cover issues ranging from the politics of public piety among the women preachers in saudi arabia through to the legal discourses in the caucasus the different shi i communities in iran lebanon iraq and pakistan and the gülen movement in azerbaijan the authors describe a wide range of political quietisms and assess the continuing significance of the tradition both to the study of islam and to the modern world today

the arab revolutions of 2011 were a transformative moment in the modern history of the middle east as people rose up against long standing autocrats throughout the region to call for bread freedom and dignity with the passage of time results have been decidedly mixed with tentative success stories like tunisia contrasting with the emergence of even more repressive dictatorships in places like egypt with the backing of several gulf states focusing primarily on egypt this book considers a relatively understudied dimension of these revolutions the role of prominent religious scholars while pro revolutionary ulama have justified activism against authoritarian regimes counter revolutionary scholars have provided religious backing for repression and in some cases the mass murder of unarmed protestors usaama al azami traces the public engagements and religious pronouncements of several prominent ulama in the region including yusuf al qaradawi ali gomaa and abdallah bin bayyah to explore their role in either championing the arab revolutions or supporting their repression he concludes that while a minority of noted scholars have enthusiastically endorsed the counter revolutions their approach is attributable less to premodern theology and more to their distinctly modern commitment to the authoritarian state
