those concerned with the practice of history as a discipline and as an intellectual activity will be intrigued by the view of history that François Furet offers in this collection of essays after twenty five years as a professional historian at the *ecole des hautes etudes* and in the ranks of the *Annales* school Furet sets out to reexamine the methodological and intellectual cleavages that exist today among historians Furet views history as a field bounded at each end by two ideal types one end is concerned with the history of periods and with the empiricism of facts rather than received ideas at the other end is problem oriented history which substitutes for the supposed coherence of a period the analytical examination of a question Furet's own work leans toward the second more conceptually oriented kind of historiography the essays in this volume most of them never before published in English illustrate the breadth of his approach Furet's discussion ranges through Tocqueville's conceptual system to present day America from the origins of history in France to the Jewish experience in the late twentieth century among Furet's recurrent themes is the contention that the historian constructs the object or field of his research rather than receiving it from the past

the leading narrative history that students love to read now made more relevant and accessible

in this stimulating volume Stephen M. Krason considers whether the founding fathers vision of the American democratic republic has been transformed and if so in what ways he looks to the basic principles of the founding fathers then discusses the changes that resulted from evolving contemporary expectations about government referencing philosophical principles and the work of great western thinkers Krason then explores a variety of proposals that could forge a foundation for restoration acknowledging that any attempt to revive the founders views on a democratic republic must start in the public sphere Krason focuses on concerned citizens who are aware of the extent to which our current political structures deviate from the founders vision and want to take action ultimately a democratic republic can exist be sustained and flourish only when there is a deep commitment to it in the minds and norms of its people written by a foremost authority in the field of US constitutional law this book will appeal to those interested in American history society and politics

this book advances the view that concentrated black power is the backbone of the democratic party and as such black empowerment represents the last hope for the US both domestically and internationally through analyses of secondary data historical archives and a variety of political and

economic statistical indicators it examines the relationship between black empowerment and america s global stature across its history exploring the socio historical context in which obstacles to black empowerment have occurred and the strategies that have been adopted across time for its realization an examination of what black political legal economic and cultural power looks like the fight for black empowerment in the usa makes an urgent call for the up lift and empowerment of the black population without which the nation faces irreversible political and economic dysfunction domestically and a loss of its status as a global superpower as such it will appeal to scholars across the social sciences with interests in racial and ethnic inequalities and contemporary american society
