the book addresses critical issues of the formation and development of jewish identity in the late second temple period how could jewish identity be defined what about the status of women and the image of others and what about its ongoing influence in early christianity

examining the theoretical connections between identity and diversity this new book explores how diversity management practices can be better informed by an enhanced understanding of the relationship between the two fields highlighting the relevance of identity to diversity studies the authors concentrate on three key areas social identity theory critical perspectives on identity and poststructuralist understandings with the aim of fueling future research this insightful book outlines a detailed research agenda and offers practical suggestions not only useful to academics this book also seeks to encourage policy makers and hr managers to develop current practices and make more research informed management decisions

uncovering the complexity of linguistic diversity and semiotic creativity this book examines the issues of power affect and identity in both physical and digital linguistic landscapes based on fieldwork with various chinese communities in australia the book offers unique insights into the uses of languages semiotic resources and material objects in public spaces and discusses the motives and ideologies that underline these linguistic and semiotic practices each chapter frames the sociolinguistic issue emerging from the linguistic landscape under investigation and shows readers how the personal trajectories of individuals the availability of semiotic resources and the historicity of spaces collectively shape the meanings of publicly displayed language items in offline and online spaces supported by a wealth of interviews media and archival data the book not only advances readers understanding of how linguistic landscape is structured by various historical political and sociocultural factors but also enables them to reimagine the linguistic landscape through the lens of emerging digital methods this book is an ideal resource for researchers advanced undergraduates and graduate students of applied linguistics and sociolinguistics who are interested in the latest advances in linguistic landscape research within virtual and material contexts

this volume considers the relationship between architectural form and different layers of identity assertion in roman egypt it stresses the sophistication of the concept of identity and the complex yet close association between architecture and identity

doctoral thesis dissertation from the year 2022 in the subject english language and literature studies linguistics university of baghdad language english abstract the study of identity within a given discourse is one of the significant topics in the field of critical discourse analysis iraqi christian identity has undergone various political and social changes during different historical periods leading to the emergence of the christian identity as a minority in society the present study investigates the representation of the identity of iraqi christian minority in the narrative discourse of selected english and arabic novels more precisely the present study is a critical discourse analysis of the christian identity as a minority in selected english and arabic novels namely the english novel abducted in iraq by saa d hanna 2017 and the arabic novel 🲲🲲🲲🲲🲲🲲🲲🲲 🲲🲲🲲🲲🲲🲲🲲 the american granddaughter by inaa m kachachi 2009 the study aims at first identifying the identity representation of iraqi christian minority in the narrative discourse of selected english and arabic novels before and after 2003 war second investigating the textual resources and their role in the identity construction of iraqi christian minority in the narrative discourse of selected english and arabic novels before and after 2003 war third identifying the discursive resources and their role in the identity construction of iraqi christian minority in the narrative discourse of selected english and arabic novels before and after 2003 war fourth examining the social resources and their role in the identity construction of iraqi christian minority in the narrative discourse of selected english and arabic novels before and after 2003 war that is it examines the role played by power and social dynamisms in the identity construction under analysis and fifth investigating similarities and differences in the identity construction of iraqi christian minority in the narrative discourse of selected english and arabic novels before and after 2003 war at the textual discursive and social levels of analysis for achieving the afore mentioned aims a purposive sampling technique is used to choose the most representative data from the selected english and arabic novels the data is analysed according to a synthesised theoretical framework based on wodak et al 2009 fairclough 2015 wortham 2001 and graumann 1999 the data are analysed both qualitatively and quantitatively

this volume presents recent developments in identity theory and research identities are the basic building blocks of society and hold a central place in every social science discipline identity theory provides a systematic conceptualization of identities and their relationship to behavior the research in this volume demonstrates the usefulness of this theory for understanding identities in action in a variety of areas and settings the volume is organized into three general areas ethnicity and race family religion and work and networks homophily and the physical environment this comprehensive and authoritative volume is of interest to a wide readership in the social and behavioral sciences including students and researchers of sociology social psychology psychology and other social science disciplines

for seven years a collaboration between the institute for medieval studies of the austrian academy of sciences and the universities of utrecht cambridge leeds and paris i sorbonne provided the opportunity for young researchers to discuss and coordinate their work the title of the project and of this volume texts and identities provides the framework for case studies in different fields of early medieval history they include apparently disparate topics such as historiography and hagiography monastic spaces and memories lay and ecclesiastic legislation as well as liturgy and penance rather than defining a common field of research the meetings from which these papers have emerged derived their coherence from their common methodological framework this approach combines two elements on the one hand emphasis has been laid on the careful analysis of the transmission of texts and of the manuscript evidence on the other research has focused on the problem of identity or rather of processes of identification including the perception of differences between specific social political and religious communities in the combination of these two approaches the extant texts from the early medieval period are not only seen as mere reflections of ethnic social and cultural identities but also as media that gave meaning to social practices and were often intended to inspire guide change or prevent action directly or indirectly the written texts that have been transmitted to us can be seen as part of a cultural effort to shape the present by means of restructuring the past the often discordant voices of medieval authors allow modern historians to grasp something of the multiplicity of the early medieval world and of the disagreements conflicts idiosyncrasies and individual perceptions among the people who lived in that period many contributions in this volume propose specific methods for studying changing identities they analyse differences between similar texts over time or specifically changes in texts in the course of their transmission the papers collected in this volume illustrate that texts were integral parts of a world in transformation
