actual test much more confidently know the directions and format for each section of the exam familiarizing yourself with the directions and format of the different test sections will not only save you time but will also ensure that you are familiar enough with the ap exam to avoid anxiety and the mistakes caused by being anxious work on the easier questions first if you find yourself working too long on one question make a mark next to it in your test booklet and continue after you have answered all of the questions that you can go back to the ones you have skipped use the process of elimination when you are unsure of an answer if you can eliminate three of the answer choices you have given yourself a fifty fifty chance of getting the item correct since there will only be two choices left from which to make a guess if you cannot eliminate at least three of the answer choices you may choose not to guess as you will be penalized one quarter of a point for every incorrect answer questions not answered will not be counted be sure that you are marking your answer in the oval that corresponds with the correct item in the test booklet since the multiple choice section is graded by machine marking the wrong answer will throw off your score
