how did intricately detailed sixteenth century maps reveal the start of the atlantic world beginning around 1500 in the decades following columbus s voyages the atlantic ocean moved from the periphery to the center on european world maps this brief but highly significant moment in early modern european history marks not only a paradigm shift in how the world was mapped but also the opening of what historians call the atlantic world but how did sixteenth century chartmakers and mapmakers begin to conceptualize and present to the public an interconnected atlantic world that was open and navigable in comparison to the mysterious ocean that had blocked off the western hemisphere before columbus s exploration in mapping an atlantic world circa 1500 alida c metcalf argues that the earliest surviving maps from this era which depict trade colonization evangelism and the movement of peoples reveal powerful and persuasive arguments about the possibility of an interconnected atlantic world blending scholarship from two fields historical cartography and atlantic history metcalf explains why renaissance cosmographers first incorporated sailing charts into their maps and began to reject classical models for mapping the world combined with the new placement of the atlantic the visual imagery on atlantic maps which featured decorative compass roses animals landscapes and native peoples communicated the accessibility of distant places with valuable commodities even though individual maps became outdated quickly metcalf reveals new mapmakers copied their imagery which then repeated on map after map individual maps might fall out of date be lost discarded or forgotten but their geographic and visual design promoted a new way of seeing the world with an interconnected atlantic world at its center describing the negotiation that took place between a small cadre of explorers and a wider class of cartographers chartmakers

cosmographers and artists metcalf shows how exploration informed mapmaking and vice versa recognizing early modern cartographers as significant agents in the intellectual history of the atlantic mapping an atlantic world circa 1500 includes around 50 beautiful and illuminating historical maps

before the voyage of columbus in 1492 the atlantic ocean stood as a barrier to contact between the people and their ideas and institutions plants animals and microbes of eurasia and africa on the one hand and the americas on the other following columbus s voyage the atlantic turned into a conduit for transferring these things among the four continents bordering the ocean in ways that affected people living on each of them the appearance of the atlantic world marks an important achievement for it stands out as the first successful attempt to combine the many strains of atlantic history into a comprehensive thoughtful narrative at the core of this ground breaking and eloquently written survey lies a consideration of the relationships among people living in europe africa and the americas with a focus on how these relationships played important roles often the most important roles in how the histories of the people involved unfolded the ways of life of millions of people changed sometimes for the better but often for the worse because of their relationship to the larger atlantic world and unlike existing texts dealing with one or another aspect of atlantic history the atlantic world does not subjugate the history of africa and south america to those of the british atlantic or europe with historians and other scholars beginning to reconceptualize the atlantic world as a dynamic zone of exchange in which people commodities and ideas circulated from the mid fifteenth century until the dawn of the twentieth century the interconnections between people along the atlantic rim create a coherent region one in which events in one corner inevitably altered the course of history in another as this book testifies atlantic history properly understood is history without borders in which national narratives take backstage to the larger examination of interdependence and cultural transmission conceived of and produced by a team of distinguished authors with countless hours of teaching experience at the college level this thoughtfully organized beautifully written and lavishly illustrated book will set the standard for all future surveys intended as a core text for the new and rapidly growing courses in atlantic history

as europeans began to move into the atlantic in the late fifteenth century first encountering islands and then two continents across the sea they initiated a process that revolutionized the lives of people everywhere american foods enriched their diets furs precious metals dyes and many other products underwrote new luxury trades and tobacco became the first consumer craze as the price plummeted with ever enlarging production much of the technology that made new initiatives such as sailing out of sight of land possibly drew on asian advances that came into europe through north africa sugar and other crops came along the same routes and europeans found american environments ideal for their cultivation leaders along the african coast controlled the developing trade with europeans and products from around the atlantic entered african life as american plantations were organized on an industrial

scale they became voracious consumers of labor american indians european indentured servants and enslaved africans were all employed and over time slavery became the predominant labor system in the plantation economies american indians adopted imported technologies and goods to enhance their own lives but diseases endemic in the rest of the world to which americans had no acquired immunity led to dramatic population decline in some areas from brazil to canada indians withdrew into the interior where they formed large and powerful new confederations atlantic exchange opened new possibilities all around the ocean states that had been marginal to the main centers in the continents interiors now found themselves at the forefront of developing trades with the promise of wealth and power european women and men whose prospects were circumscribed at home saw potential in emigration economic aspirations beckoned large numbers but also in the maelstrom following the reformation others sought the chance to worship as they saw fit many saw their hopes dashed but some succeeded as they had desired ultimately as people of african and european descent came to predominate in american populations they broke political ties to europe and reshaped transatlantic relationships

this volume uses a biography as history approach to illuminate the interconnectedness of the peoples of the americas west africa and europe contributors highlight individuals and people s experiences made possible by their participation in the creation of an atlantic world where conflict cooperation neccessity and invention led to new societies and cultures composed of chapters that span a broad chronological topical and thematic range atlantic biographies highlights the uniqueness of the atlantic as a social political economic and cultural theater bound together to illustrate what the atlantic meant to those subjects of each chapter this is a book about people their resilience and their resolve to carve a niche or have a broader impact in the ever changing world around them
