this book demonstrates the material political and aesthetic dimensions of pan caribbean literary discourse in magazine texts by suzanne and aimé césaire nicolás guillén josé lezama lima alejo carpentier george lamming derek walcott and their contemporaries thus far the canonical centrality of literary magazines to caribbean literature politics and social theory has been obscured up against the global book industry caribbean literary magazines have waged a guerrilla pursuit for the terms of caribbean representation

discover a comprehensive set of tools and techniques for analyzing the impact of uncertainty on large scale engineered systems providing accessible yet rigorous coverage it showcases the theory through detailed case studies drawn from electric power application problems including the impact of integration of renewable based power generation in bulk power systems the impact of corrupted measurement and communication devices in microgrid closed loop controls and the impact of components failures on the reliability of power supply systems the case studies also serve as a guide on how to tackle similar problems that appear in other engineering application domains including automotive and aerospace engineering this is essential reading for academic researchers and graduate students in power systems engineering and dynamic systems and control engineering

this is the most important and fascinating book yet written about how the digital age will affect our world walter isaacson author of steve jobs from two leading thinkers the widely anticipated book that describes a new hugely connected world of the future full of challenges and benefits which are ours to meet and harness the new digital age is the product of an unparalleled collaboration full of the brilliant insights of one of silicon valley s great innovators what bill gates was to microsoft and steve jobs was to apple schmidt along with larry page and sergey brin was to google and the director of google ideas jared cohen formerly an advisor to both secretaries of state condoleezza rice and hillary clinton never before has the future been so vividly and transparently imagined from technologies that will change lives information systems that greatly increase productivity safety and our quality of life thought controlled motion technology that can revolutionise medical procedures and near perfect translation technology that allows us to have more diversified interactions to our most important future considerations curating our online identity and fighting those who would do harm with it to the widespread political change that will transform the globe through transformations in conflict increasingly active and global citizenries a new wave of cyber terrorism and states operating simultaneously in the physical and virtual realms to the ever present threats to our privacy and security schmidt and cohen outline in great detail and scope all the promise and peril awaiting us in the coming decades a breakthrough

book pragmatic inspirational and totally fascinating whether a government a business or an individual we must understand technology if we want to understand the future a brilliant guidebook for the next century schmidt and cohen offer a dazzling glimpse into how the new digital revolution is changing our lives richard branson

asian americans are a small percentage of the u s population but their numbers are steadily rising from less than a million in 1960 to more than 15 million today they are also a remarkably diverse population representing several ethnicities religions and languages and they enjoy higher levels of education and income than any other u s racial group historically socioeconomic status has been a reliable predictor of political behavior so why has this fast growing american population which is doing so well economically been so little engaged in the u s political system asian american political participation is the most comprehensive study to date of asian american political behavior including such key measures as voting political donations community organizing and political protests the book examines why some groups participate while others do not why certain civic activities are deemed preferable to others and why asian socioeconomic advantage has so far not led to increased political clout asian american political participation is based on data from the authors groundbreaking 2008 national asian american survey of more than 5 000 chinese indian vietnamese korean filipino and japanese americans the book shows that the motivations for and impediments to political participation are as diverse as the asian american population for example native born asians have higher rates of political participation than their immigrant counterparts particularly recent adult arrivals who were socialized outside of the united states protest activity is the exception which tends to be higher among immigrants who maintain connections abroad and who engaged in such activity in their country of origin surprisingly factors such as living in a new immigrant destination or in a city with an asian american elected official do not seem to motivate political behavior neither does ethnic group solidarity instead hate crimes and racial victimization are the factors that most motivate asian americans to participate politically involvement in non political activities such as civic and religious groups also bolsters political participation even among asian groups socioeconomic advantage does not necessarily translate into high levels of political participation chinese americans for example have significantly higher levels of educational attainment than japanese americans but japanese americans are far more likely to vote and make political contributions and vietnamese americans with the lowest levels of education and income vote and engage in protest politics more than any other group lawmakers tend to favor the interests of groups who actively engage the political system and groups who do not participate at high levels are likely to suffer political consequences in the future asian american political participation demonstrates that understanding asian political behavior today can have significant repercussions for asian american political influence tomorrow
