this book provides an overview of contemporary issues in sudan africa s largest nation examining the country s history and current scene to help readers develop a deeper understanding of how much sudan matters in today s world with deep connections to the

sahel and savanna to the west the african world to the south the horn of africa to the east and the middle east to the north sudan is important strategically legally geopolitically and militarily but too often overlooked or underestimated sudan the country of residence of osama bin laden for six years has played and will continue to play a significant role in worldwide security matters an analysis of the causes resolutions and implications of the ongoing sudanese conflicts including the genocide in darfur this book is essential reading for policymakers researchers and students alike this book considers sudan s historical foundations examining how the agendas of countries to the south east and north have influenced sudan s people and government the author also explains the origins and context of the darfur conflict laying out possible steps toward a resolution questions concerning sudanese oil where is it how much is there to whom does it belong help focus any discussion of sudan s emerging importance in the contemporary world other issues such as the influence of islamism or the sudanese activities of the arab league china or the african union underline the uncertainties that confront the people of sudan today

reproductive and developmental toxicology second edition is a comprehensive and authoritative resource that provides the latest literature on this complex subject with a primary focus on three core components parent placenta and fetus and the continuous changes that occur in each enriched with relevant references describing every aspect of reproductive toxicology this revised and updated resource addresses the totality of the subject discussing a broad range of topics including nanoparticles and radiation gases and solvents smoking alcohol and drug abuse and metals amongst others with a special focus on placental toxicity this book is the only available reference to connect the three key risk stages also including discussions on reproductive and developmental toxicity in domestic animals fish and wildlife completely revised and updated to include the most recent developments in the field the book is an essential resource for advanced students and researchers in toxicology as well as biologists pharmacologists and teratologists from academia industry and regulatory agencies provides a complete up to date integrated source of information on the key risk stages during reproduction and development includes new chapters covering significant developments such as dose response assessment for developmental toxicity juvenile toxicity and neural tube defects as well as emerging science such as stem cell application toxicoproteomics metabolomics endocrine disruption surveillance and regulatory considerations and risk assessment offers diverse and unique in vitro and in vivo toxicity models for reproductive and developmental toxicity testing in a user friendly format that assists in comparative analysis

activation of the complement system gives rise to a number of molecular species which can interact with host derived cells and regulate their function this interaction is mediated through distinct cell surface complement receptors and receptor engagement produces

biologic responses which can either modulate host defense reactions or enhance inflammation although the first complement receptor was recognized more than 30 years ago 80j detailed biochemical information concerning the receptors has only recently become available currently eight distinct complement receptors are recognized five receptors cr1 cr2 cr3 c3a receptor and c3e receptor react with various regions on c3 while the other receptors display specificity for clq c5a or factor h this chapter focusses on the chemistry of the various ligands and receptors and discusses the biologic activities which arise as a result of receptor ligand interaction ii ciq receptor a the ligand clq is the recognition molecule of the classical complement pathway reviewed in 20 130 in serum it is part of a calcium dependent penta molecular complex containing one molecule of clq and two molecules each of the pro enzymes clr and cis during classical pathway activation the macromolecular complex becomes associated with the activator through the clq subcomponent bound clq undergoes a conformational change and induces the proteolytic autoactivation of clr which in turn effects the proteolytic activation of cis this process is controlled by the cl inhibitor clinh which binds irreversibly to activated clr and cis and inhibits their enzymatic activities

targeting enzymes in the brain series highlights new advances in the field with this new volume presenting interesting chapters each chapter is written by an international board of authors provides the latest information on brain enzyme researches offers outstanding and original reviews on a range of brain enzyme research topics serves as an indispensable reference for researchers and students alike

the book integrates our understanding of the factors and processes underlying the evolution of multicellularity by providing several complementary perspectives both theoretical and experimental and using examples from various lineages in which multicellularity evolved recent years marked an increased interest in understanding how and why these transitions occurred and data from various fields are providing new insights into the forces driving the several independent transitions to multicellular life as well as into the genetic and molecular basis for the evolution of this phenotype the ultimate goal of this book is to facilitate the identification of general and unifying principles and mechanisms

bioinformatics for systems biology bridges and unifies many disciplines it presents the life scientist computational biologist and mathematician with a common framework only by linking the groups together may the true life sciences revolution move forward
