it has been said that every generation of historians seeks to rewrite what a previous generation had established as the standard interpretations of the motives and circumstances shaping the fabric of historical events it is not that the facts of history have changed no one will dispute that the battle of waterloo occurred on june 11 1815 or that the allied invasion of europe began on june 6 1944 what each new age of historians are attempting to do is to reinterpret the motives of men and the force of circumstance impacting the direction of past events based on the factual social intellectual and cultural milieu of their own generation by examining the facts of history from a new perspective today s historians hope to reveal some new truth that will not only illuminate the course of history but also validate contemporary values and societal ideals although it is true that tackling the task of developing a new text on logistics and distribution channel management focuses less on schools of philosophical and social analysis and more on the calculus of managing sales campaigns inventory replenishment and income statements the goal of the management scientist like the historian is to merge the facts and figures of the discipline with today s organizational cultural and economic realities hopefully the result will be a new synthesis where a whole new perspective will break forth exposing new directions and opportunities

strategic information management has been completely up dated to reflect the rapid changes in it and the business environment since the publication of the second edition half of the readings in the book have been replaced to address current issues and the latest thinking in information management it goes without saying that information technology has had a major impact on individuals

organizations and society over the past 50 years or so there are few organizations that can afford to ignore it and few individuals who would prefer to be without it as managerial tasks become more complex so the nature of the required information systems is changes from structured routine support to ad hoc unstructured complex enquiries at the highest levels of management as with the first and second editions this third edition of strategic information management challenges and strategies in managing information systems aims to present the many complex and inter related issues associated with the management of information systems the book provides a rich source of material reflecting recent thinking on the key issues facing executives in information systems management it draws from a wide range of contemporary articles written by leading experts from north america and europe strategic information management is designed as a course text for mba master s level students and senior undergraduate students taking courses in information management it provides a wealth of information and references for researchers in addition
