the ashen light of venus a ghostly emission of light from the night side of our nearest planetary neighbor is among the last unsolved mysteries of astronomical history in the four centuries since the phenomenon was first reported highly reputable visual observers of venus have recorded seeing the ashen light while others have spent a lifetime searching for it

without once being convinced that they ever saw it is the ashen light a trick of the eye the result of a defective lens a real scientific event occasional references to the ashen light are scattered across the literature yet no work to date has synthesized these records this book therefore digs deep into the history of the mystery and our latest attempts to understand it sifting through the clues that might explain whether it is caused by physics is conjured up by the eye or brain or a combination of both this baffling story will appeal to amateur astronomers hobbyists and lay readers interested in joining the debate about one of the most elusive observable phenomena ever recorded in the night sky

jews on trial concentrates on inquisitorial activity during the period which historians have argued was the most active in the inquisition s history the first forty years of the tribunal in modena from 1598 to 1638 the year of the jews enclosure in the ghetto scholars have in the past tended to group trials of jews and conversos in italy together this book emphasises the fundamental disparity in inquisitorial procedure as well as the evidence examined and argues that this was especially true in modena where the secular authority did not have the power during the period in question to reject or even significantly monitor inquisitorial trial procedure it draws upon the detailed testimony to be found in trial transcripts to analyse jewish interaction with christian society in an early modern community this book will appeal to scholars of inquisitorial studies social and cultural interaction in early modern europe jewish italian social history and anti semitism
