a landmark textbook on development economics the study of development in low income countries is attracting more attention around the world than ever before yet until now there has been no comprehensive text that incorporates the recent huge strides made in the subject development economics does precisely that in a clear rigorous and elegant fashion debraj ray one of the most accomplished theorists in development economics today presents in this book a synthesis of recent and older literature in the field and raises important questions that will help to set the agenda for future research he covers such vital subjects as theories of economic growth economic inequality poverty and undernutrition population growth trade policy and the markets for land labor and credit a common point of view underlies the treatment of these subjects that much of the development process can be understood by studying factors that impede the efficient and equitable functioning

of markets diverse topics such as the new growth theory moral hazard in land contracts information based theories of credit markets and the macroeconomic implications of economic inequality come under this common methodological umbrella the book takes the position that there is no single cause for economic progress but that a combination of factors among them the improvement of physical and human capital the reduction of inequality and institutions that enable the background flow of information essential to market performance consistently favor development ray supports his arguments throughout with examples from around the world the book assumes a knowledge of only introductory economics and explains sophisticated concepts in simple direct language keeping the use of mathematics to a minimum development economics will be the definitive textbook in this subject for years to come it will prove useful to researchers by showing intriguing connections among a wide variety of subjects that are rarely discussed together in the same book and it will be an important resource for policy makers who increasingly find themselves dealing with complex issues of growth inequality poverty and social welfare

with contributions from 35 leading economists this forward looking book explores the future of development economics against the background of the past half century of development thought and practice outstanding representatives of the past two generations of development economists assess development thinking at the turn of the century and look to the unsettled questions confronting the next generation the volume offers a thorough analysis of the broad range of issues involved in development economics and it is especially timely in its critique of what is needed in development theory and policy to reduce poverty an overriding issue is whether in the future development economics is to be regarded simply as applied economics or whether the nature and scope of development economics will constitute a need for a special development theory to supplement general economic theory frontiers of development economics is an ideal reference for all those working in the international development community

this text maintains a problem and policy oriented approach to development economics it focuses on people and government in developing countries

over 800 million people suffer from chronic hunger and over ten million children die each year from preventable causes these may seem like overwhelming statistics but as stephen smith shows in this call to arms global poverty is something that we can and should solve within our lifetimes ending global poverty explores the various traps that keep people mired in poverty traps like poor nutrition illiteracy lack of access to health care and others and presents eight keys to escaping these traps smith gives readers the tools they need to help people overcome poverty and to determine what approaches are most effective in fighting it for example celebrities

in commercials who encourage viewers to adopt a poor child really seem to care but will sending money to these organizations do the most good smith explains how to make an informed decision grass roots programs and organizations are helping people gain the capabilities they need to escape from poverty and this book highlights many of the most promising of these strategies in some of the poorest countries in the world explaining what they do and what makes them effective
