**Part 1 Foundations of Ethical Theory**

The book effectively introduces fundamental ethical frameworks emphasizing their strengths and limitations We explore

- Consequentialism** This approach judges the morality of an action based solely on its consequences **Utilitarianism** a prominent consequentialist theory aims to maximize overall happiness and wellbeing Imagine a scenario where a doctor must choose between saving five lives by sacrificing one healthy individuals organs a utilitarian might justify this act if it leads to the greatest good for the greatest number However critics argue it can disregard individual rights
- Deontology** Unlike consequentialism deontology focuses on duties and moral rules regardless of the outcome **Immanuel Kants categorical imperative** emphasizes acting according to universalizable principles rules you would want everyone to follow Lying for instance would be inherently wrong under this framework even if it resulted in a positive outcome The strength lies in its protection of individual rights but it can appear inflexible in complex situations
- Virtue Ethics** This approach emphasizes character development and cultivating virtues like honesty compassion and courage It focuses less on specific actions and more on becoming a morally good person Aristotle argued that virtues are the golden mean between extremes courage for example lies between recklessness and cowardice This approach is holistic but can be challenging to apply in specific situations without a clear framework for action

**Part 2 Care Ethics** This feminist perspective prioritizes relationships empathy and responsiveness to the needs of others It challenges traditional ethical frameworks that often overlook the impact of power dynamics and social contexts A care ethicist might focus on the specific needs of individuals within a given situation prioritizing relationships and mutual respect over abstract principles
