this book was conceived as a gathering place of new ideas from academia industry research and practice in the fields of robotics automation and control the aim of the book was to point out interactions among various fields of interests in spite of diversity and narrow specializations which prevail in the current research the common denominator of all included chapters appears to be a synergy of various specializations this synergy yields deeper understanding of the treated problems each new approach applied to a particular problem can enrich and inspire improvements of already established approaches to the problem

management and administrative processes within the construction industry have been undergoing major changes in the last several decades these changes have involved significant adjustments in management science and management techniques brought about by the need for contemporary valid information with which to manage the construction process in short management in the construction industry is changing significantly change will continue at an accelerated pace at least through the next decade the responses

required of construction industry management are now resulting in a movement away from an entrepreneurial management style to professional management techniques and procedures the compelling economic issues the issues forcing these changes are economic the rising costs of construction and of money are forcing the buyers of construction services to be more demanding their demands are for more construction economies more production and more productivity than at any time in the past nowhere has this been more evident than in the business roundtable on construction and in the response of the construction industry to it to be successfully responsive management in the construction industry will be required to use the best project management methods available for cost control schedule control and for financial and accounting controls but responsive professional management can survive and will flourish within this more demanding economic environment

includes subject agency and budget indexes

computers for librarians is aimed primarily at students of library and information management and at those library and information service professionals who feel the need for a book that will give them a broad overview of the emerging electronic library it takes a top down approach starting with applications such as the internet information sources and services provision of access to information resources and library management systems before looking at data management computer systems and technology data communications and networking and library systems development it also provides an interesting set of case studies which help to put theoretical and technical issues into context computers for librarians can be read as a survey of where we are in terms of the electronic library but it is also intended as an educational resource and includes self learning aids such as learning objectives keywords and review questions for each chapter

these guidelines are intended to assist in evaluating the adequacy of the management information systems mis of industrial enterprises the introduction discusses the objectives of a management information system and suggests how to use the guidelines the guidelines are divided into five parts corresponding to the five functions of the enterprise i finance and accounting ii human resources iii marketing distribution and transportation iv operations including production materials management and maintenance and v new investments and procurement for each of these functions the guidelines will help evaluate the impact on the company s mis of the business environment and management framework as well as the adequacy of the company s systems for strategic planning tactical planning management control and transaction recording processes in addition a section is provided to help quantify the evaluation of the mis furthermore the guidelines are meant to assist in evaluating the mis systems of its potential borrowers but not intended to establish the bank s requirements regarding mis under its loans and credits they may however prove of use to some enterprise managers in their own internal evaluation processes
