for the first time in 35 years here is a complete analytical and comparative study of the only two english translations of this marvelous work this particular effort

makes references back to our copy of the spanish text for clarity more importantly this effort is coordinated with teresa of avila s works thus an additional 400 notes in combination with comparatives between the variant references are supplied this work has been translated by the sisters of stanbrook francisco de osuna draws on the ancient doctrine of the spiritual senses to describe the psychological experience that takes place as spiritual attentiveness is gradually deepening he takes up the traditional analogies of the darkness of blindness the silence in deafness the passivity in dumbness to draw out the ways that the prayer of recollection belongs to the apophatic way of contemplating the divine he connects and places his reflections in the context of the gospel beatitudes the vision of humanity described by jesus christ

francisco de osuna c 1492 c 1540 spanish franciscan and mystic wrote a series of maxims as a practical guide for recollection these were arranged into a series of spiritual alphabets this being the third

franciscans in sixteenth century new spain were deeply ambivalent about their mission work fray juan de zumárraga the first archbishop of mexico begged the king to find someone else to do his job so that he could go home fray juan de ribas one of the original twelve apostles of mexico and a founding pillar of the church in new spain later fled with eleven other friars into the wilderness to escape the demands of building that church fray jerónimo de mendieta having returned from an important preaching tour in new spain wrote to his superior that he did not want to enlist again and that the only way he would return to the mission field was if god dragged him by the hair this discontent was widespread grew stronger with time and carried important consequences for the friars interactions with indigenous peoples their catholic co laborers and colonial society at large this book examines that discontent and seeks to explain why the exhilaration of joining such a glorious enterprise so often gave way to grinding discontent the core argument is that despite st francis s own longing to do mission work his followers in new spain found that effective evangelization in a frontier context was fundamentally incompatible with their core spirituality bringing together two streams of historiography that have rarely overlapped spirituality and missions this book marks a strong contribution to the history of spirituality in both latin america and europe as well as to the growing fields of transatlantic and world history

having been discarded into the oblivion of heretics the figure of juan de valdés only began to be recovered at the end of the 19th century initially associated with protestantism valdés has been portrayed by a range of writers who have each tried to classify him in one of the religious categories of the time erasmian catholic alumbrado or protestant however the very diversity of portraits only confirmed the need for a more eclectic point of view in his book manuel martínez

ortega examines particular religious trends texts and tendencies of valdes time and context in order to identify through the analysis of his writings the particular characteristics and emphases of his eclecticism his writings include commentaries on the bible with translation from greek into spanish as well as a sizable spiritual manual and something like theological sketches all of which portray his convictions and message the analysis of his writings and their background reveal that within the movement of spanish protestantism juan de valdés constitutes a clear example of religious currents that received and assimilated key principles of the protestant reformation

the essays collected in this volume provide a resource for thinking theologically about the practice of christian prayer in the first of four parts the volume begins by reaching back to the biblical foundations of prayer then each of the chapters in the second part investigates a classical christian doctrine including god creation christology pneumatology providence and eschatology from the perspective of prayer the chapters in the third part explore the writings of some of the great theorizers of prayer in the history of the christian tradition the final part gathers a set of creative and critical conversations on prayer responding to a variety of contemporary issues overall the t t clark handbook of christian prayer articulates a theologically expansive account of prayer one that is deeply biblical energetically doctrinal historically rooted and relevant to a whole host of critical questions and concerns facing the world today

inventing the sacred analyzes the spanish inquisition s campaign to ferret out false saints and scandalous impostors whose claims of divinely inspired visions and revelations threatened the catholic church s efforts to monopolize access to the supernatural

the poetry and prose writings of the sixteenth century spanish friar john of the cross are of interest to scholars of systematic theology christian spirituality and spanish poetry this work provides the first extended english language analysis of these writings since the 1950s

in these conferences dating to 1961 thomas merton provides for his audience of young monks an overview of major themes and figures in the christian mystical tradition as an integral part of their religious inheritance and a crucial part of their spiritual formation from fathers of the church such as st athanasius and st gregory of nyssa through such important medieval theologians as st bonaventure hadewijch and meister eckhart to the great spanish carmelites st teresa of avila and st john of the cross merton traces such key topics as the integration of theology and spirituality the importance of natural contemplation recognizing the divine presence in creation the centrality of apophatic or dark contemplation and the role of spiritual direction in forming mature and balanced contemplatives
