what is the biggest impediment of learning anything new it is the jargons people usually get scared by the jargons for example the fundamental jargons used in economics are currency gdp gnp inflation deflation etc if one wishes to master economics one must learn to understand those jargons so the easiest way to learn the fundamentals of a new subject is to understand the jargons used in that field but if people find it difficult to understand the definition of the jargons they will simply show no interest to learn further in that field similarly spirituality has evoked little interest among the masses because of the lack of down to earth explanations for the jargons used therefore keeping those in mind who have very little time to explore the jargons on their own this book contains very simple explanations for the spiritual jargons as well as very simple techniques to do meditation so anyone who goes through this book will develop a taste for spirituality and will learn to meditate very quickly and easily it is immaterial whether you are a believer in god or not but if you are someone who has the courage to question anything and everything this book is for you
