at the core of the music industries is the artist there are thousands of aspiring performers yet only a handful can be truly successful what propels one artist where others fail talent originality ambition or pro active well informed career management professional management of the artist s career is critical to their eventual and sustained success and managers are a pivotal and understudied part of the music industries central to all the activities within them in recent years the role has changed dramatically ai online resources and platforms streaming and social media have opened doors for the self managing artist as well as the astute professional music manager in many instances managers have assumed roles vacated by record companies meaning that their responsibilities have multiplied as potential sources of income have shrunk this book addresses these issues and others as it supports and guides those wishing to work in artist development or the management of their own career

the study offers an alternative approach to music theoretical analyses of harmony and tonality in radiohead s work by examining modal fluctuations in their music by identifying modal fluctuation as a key element of their harmonic style these fluctuations are interpreted in the analysis as interactions between different states each

possessing its own distinct qualities building on the research of Chris McDonald and Philip Tagg it is argued that these qualities can be better understood by considering the historical and cultural contexts in which they emerged rather than by applying principles from external theoretical frameworks starting from a mapping of the relationships between all modal pitch collections through a single chromatic alteration a selection of Radiohead's works is analysed according to three increasingly complex harmonic categories monomodality simple modal fluctuation and complex modal fluctuation it is suggested that this approach not only deepens our understanding of the meanings within their music but also offers a new perspective from which popular music more broadly can be examined

Introduction to the Music Industry: An Entrepreneurial Approach is an introductory textbook that offers a fresh look at one of the fastest changing businesses in the world today emphasizing the importance of entrepreneurial thinking for the music industry this textbook engages college level students in learning the fundamentals of the music business while discovering ways to shape the industry's future every chapter explores the inner workings of the music industry using creative problem solving exercises discussion questions collaborative projects case studies hands on activities and inspiring stories of actual music entrepreneurs the textbook's companion website provides multi media content study guides and an instructor's manual with lesson plans and suggestions for assessing students work this book will be beneficial to students who want to learn the basics of the music industry and be involved in some way whether a professional working in support of artists or an artist trying to launch his or her performing career
