in a book that is as certain to be as controversial as it is meticulously researched a former special assistant to the president for national security affairs and senior official of the central intelligence agency shows that the u s could be headed toward a nuclear face off with communist china within four years and it definitively reveals how china is steadily pursuing a stealthy systematic strategy to attain geopolitical and economic dominance first in asia and eurasia then possibly globally within the next twenty using recently declassified documents statements by russian and chinese leaders largely overlooked in the western media and groundbreaking analysis and investigative work menges explains china s plan thoroughly exposing china s methods of economic control china s secret alliance with russia and other anti america nations including north korea china s growing military and nuclear power over 90 icbms many of them aimed at u s cities how china and russia have been responsible for weaponizing terrorists bent on harming the u s damage caused by china s trade tactics since 1990 we ve lost 8 million jobs thanks to china trade surpluses

there has been little examination of the china policy of the theodore roosevelt administration works dealing with the topic fall either into brief discussions in biographies of roosevelt general surveys of sino american relations or studies of special topics such as the chinese exclusion issue which encompass a portion of the roosevelt years moreover the subject has been overshadowed somewhat by studies of problems between japan and the united states in this era the goal of this study is to offer a more complete examination of the american relationship with china during roosevelt s presidency the focus will be on the discussion of major issues and concerns in the relationship of the two nations from the time roosevelt took office until he left something that this book does for the first time greater emphasis needs to be placed on creating a more complete picture of teddy roosevelt and china relations especially in regard to his and his advisers perceptual framework of that region and its impact upon the making of china policy the goal of this study is to begin that process special attention is paid to the question of how roosevelt and the members of his administration viewed china as it is believed that their viewpoints which were prejudicial were very instrumental in how they chose to deal with china and the question of the open door the emphasis on the role of stereotyping gives the book a particularly unique point of view readers will be

made aware of the difficulties of making foreign policy under challenging conditions but also of how the attitudes and perceptions of policymakers can shape the direction that those policies can take a critical argument of the book is that a stereotyped perception of china and its people inhibited american policy responses toward the chinese state in roosevelt s administration while roosevelt s attitudes regarding white supremacy have been discussed elsewhere a fuller consideration of how his views affected the making of foreign policy particularly china policy is needed especially now that sino american relations today are of great concern

since the establishment of the red army in 1927 china s military has responded to profound changes in chinese society particularly its domestic politics shifting economy and evolving threat perceptions recently tensions between china and taiwan and other east asian nations have aroused great interest in the extraordinary transformation and new capabilities of the chinese army in a history of the modern chinese army xiaobing li a former member of the people s liberation army pla provides a comprehensive examination of the pla from the cold war to the beginning of the twenty first century that highlights the military s central function in modern chinese society in the 1940s the chinese army was in its infancy and many soldiers were rural conscripts and volunteers who had received little formal schooling the chinese military rapidly increased its mobility and weapon strength and the korean war and cold war offered intense combat experience that not only allowed soldiers to hone their fighting techniques but also helped china to develop military tactics tailored to the surrounding countries whose armies posed the most immediate threats yet even in the 1970s the completion of a middle school education nine years was considered above average and only 4 percent of the 224 top chinese generals had any college credit hours however in 1995 the high command began to institute massive reforms to transform the pla from a labor intensive force into a technology intensive army continually seeking more urban conscripts and emphasizing higher education the pla reserve officer training and selection program recruited students from across the nation these reservists would become commissioned officers upon graduation and they majored in atomic physics computer science and electrical engineering grounding the text in previously unreleased official chinese government and military records as well as the personal testimonies of more than two hundred pla soldiers li charts the development of china s armed forces against the backdrop of chinese society cultural traditions political history and recent technological advancements a history of the modern chinese army links china s military modernization to the country s growing international and economic power and provides a unique perspective on china s establishment and maintenance of one of the world s most advanced military forces

known as the taiwan miracle the republic of china on taiwan r o c has over the past thirty five years experienced one of the world s highest rates of economic growth arguing that major theoretical frameworks for analyzing international political economy are often too simplistic in that they omit key factors or overly generalize from relationships found only in limited situations clark uses a detailed case history of the r o c to suggest not only that development and dependency in contemporary society are extremely complex and indeterminate processes but that development in taiwan deviates significantly from the postulates of the two leading paradigms of international political economy to go even further clark states that taiwan s economic growth and transformation resulted from its deviation from the normal dependency syndrome indeed a development strategy based on economic flexibility and periodic regime change that has made this flexibility possible are hallmarks in taiwan s success story the united states and other advanced industrial economies whose past successes have created economic and political barriers to future adaptation can be better understood in terms of the characteristics of r o c s development strategy part i of the three part work focuses on environment first discussing various paradigms and theories about development and then presenting an historical overview of taiwan the

second part investigates taiwan s international role political development and rapid economic growth the volume closes with a chapter devoted to the implications of the taiwan experience and political economy paradigms eight figures and thirty five tables illustrate facets of taiwan s development including government structure indicators of agricultural development industrialization educational progress and export performance among others because of the detailed presentations of political economy theories and their variants especially in relation to economic and political development in taiwan this volume would be an excellent choice for courses in political economy developing societies asian politics and international relations theory as well as libraries serving students in these areas
