over the past decade as digital media has expanded and print outlets have declined pundits have bemoaned a crisis of criticism and mourned the death of the critic now that well paying jobs in film criticism have largely evaporated while blogs message boards and social media have given new meaning to the saying that everyone's a critic urgent questions have emerged about the status and purpose of film criticism in the twenty first century in film criticism in the digital age ten scholars from across the globe come together to consider whether we are witnessing the extinction of serious film criticism or seeing the start of its rebirth in a new form drawing from a wide variety of case studies and methodological perspectives the book's contributors find many signs of the film critic's declining clout but they also locate surprising examples of how critics whether moonlighting bloggers or salaried writers have been able to intervene in current popular discourse about arts and culture in addition to collecting a plethora of scholarly perspectives film criticism in the digital age includes statements from key bloggers and print critics like armond white and nick james neither an uncritical celebration of digital culture nor a jeremiad against it this anthology offers a comprehensive look at the challenges and possibilities that the internet brings to the evaluation promotion and explanation of artistic works

a new legal concept of identity as transactions once based on personal relationships are increasingly automated it is inevitable that our traditional concept of identity will need to be redefined this book examines the functions and legal nature of an individual's digital identity in the context of a national identity scheme the analysis and findings are relevant to the one proposed for the united kingdom to other countries which have similar schemes and to countries like australia which are likely to establish such a scheme in the near future under a national identity scheme being asked to provide id will become as commonplace as being asked one's name and the concept of identity will become embedded in processes essential to the national economic

and social order the analysis reveals the emergence of a new legal concept of identity this emergent concept and the associated individual rights including the right to identity potentially change the legal and commercial landscape the author examines the implications for individuals businesses and government against a background of identity crime

this book analyzes the legal tensions that exist in the economy that purports to reanimate the dead using postmortem digital technologies technological reanimation has proven to be big business with many notable commercial entities investing in this afterlife economy postmortem technologies convincingly replicate the appearance physiognomy conversation styles and thought patterns of a deceased individual by generating digital copies that act in their stead in the entertainment industry new works can be created with dead celebrities through a postmortem copy that is managed by their representatives the result is an economy in which the dead are offered as a product or service to consumers with some having their artistic legacies extended past death through an afterlife career many stakeholders stand to benefit from such a lucrative afterlife economy but the law is simply not

prepared for the issues that will arise with this exploitation of the dead reanimation requires the exploitation of one's reputation persona artistic works and personal data however the corresponding legal protections are either nonexistent inapplicable or inconsistent across borders depending on which posthumous interest is analyzed in response and by studying the contours of the existing legal protections in the afterlife economy this book proposes a system rooted in the shared ownership of one's postmortem copy and the responsible stewardship of legacies through fiduciary duties law and the digital reanimation of the dead will be of considerable interest to scholars working in the areas of entertainment law intellectual property and law and technology as well as others with professional interests in the area

in this work bridgette wessels offers a unique insight into the ways in which core public institutions and powerful organizations develop digital communications and services within the public realm the book draws on her ethnographic research with the london metropolitan police service during their engagement in an innovative project to improve communication with the public using digital technology as one of the largest most advanced and highly respected police services in the world working in a socially culturally and demographically complex city the metropolitan police service offers a highly revealing case study of technology and the human processes which it is designed to serve the ethnographic research is used to develop a new theoretical and conceptual framework for understanding the relationship between social action and technological change addressing the way in which technology is socially shaped and culturally informed the book also discusses the role of ethnography as a tool for researching complex multi perspective multi sited networks of the innovation of digital technologies as forms of communication in late modern western society

gubrium and harper provide instruction in visual and digital methodologies and show how they can contribute to building a participatory public engaged ethnography
