nigel calder a diesel mechanic for more than 25 years is also a boatbuilder cabinetmaker and machinist he and his wife built their own cruising sailboat nada a project they completed in 1984 calder is author of numerous articles for yachting monthly and

many other magazines worldwide as well as the bestselling boatowner's practical and technical cruising manual and boatowner's mechanical and electrical manual both published by Adlard Coles Nautical. Here in this goldmine of a book is everything the reader needs to keep their diesel engine running cleanly and efficiently. It explains how diesel engines work, defines new terms, and lifts the veil of mystery that surrounds such engines. Clear and logical, this extensively illustrated guide will enable the reader to be their own diesel mechanic. As Nigel Calder says, there is no reason for a boatowner not to have a trouble-free relationship with a diesel engine. All one needs is to set the engine up correctly in the first place, to pay attention to routine maintenance, to have the knowledge to spot early warning signs of impending trouble, and to have the ability to correct small ones before they become large ones.

Written by a practitioner, this comprehensive guide presents all the information and skills needed by the proficient diesel mechanic. Throughout the material, it emphasizes the practical nuts and bolts aspects of the trade. Each chapter contains a brief introduction, a list of objectives, and a general treatment of the subject at hand, a treatment of related component parts, and nomenclature that familiarizes readers with terms and parts, and a detailed discussion of the theory of operation, repair, and overhaul. Assembly, testing, and adjustment procedures are highlighted for easy reference. Also included are practical advice and approaches to troubleshooting, as well as summaries, lists of review questions, and numerous illustrations.
