the past three decades have seen the united states increasingly involved in the affairs of countries in all parts of the globe americans have become familiar with places which as schoolchildren they never even knew existed the end of american isolation has resulted in a spate of juvenile literature admirably suited to encourage children to know and understand the larger world in which they live teachers and librarians must of necessity be leaders in this endeavor it is hoped this book will make their task easier

with its brief global rather than west centered approach world history in brief sixth edition seeks to show how different civilizations developed in a global context rather than overwhelm students the chief goal of world history in brief is to present the big picture to facilitate comparison and assessment of change and to highlight the major developments in the world's history this text also emphasizes the global interactions of major civilizations so that students can compare and assess changes in the patterns of interaction and the impact of global forces such as migration and technology exchange the compact size of this text gives instructors the opportunity to take advantage of additional supplementary readings

globalisation was the buzzword of the 1990s it promises to become even more important in the first decade of the new century there is now a flood of literature on the

economics politics and sociology of globalization and regular commentary in the serious daily and weekly press virtually all of this discussion makes assumptions and frequently explicit claims about the novelty of globalisation according to one view the globalisation is a new phenomenon that can be dated from the 1980s a second view holds that globalisation has a long history that can be traced back to the nineteenth century if not earlier the importance of these themes scarcely needs elaborating yet they have still to attract significant attention from historians this volume is the first by a team of historians to address these issues globalisation in world history has two distinctive features first it offers a categorisation of types and stages of globalisation that existed before the late twentieth century no such taxonomy exists at present secondly it emphasises a feature that the current debate greatly underestimates the fact that globalisation has non western as well as western origins globalisation is much more than the rise of the west presented in new terminology the contributors bring their expertise to bear on themes that give prominence to china south asia africa and the world of islam as well as to europe and the united states and span the last three centuries while also showing an awareness of more distant antecedents the result is a coherent and thought provoking collection of essays globalisation will become a major theme of historical research during the next decade this book will help to set the new agenda
