there remains significant uncertainty about the exact scope and timing of climate change related impacts on water resources but the national water program and its partners need to assess emerging climate change information evaluate potential impacts of climate change on water programs and identify needed responses this report is an initial effort to evaluate how best to meet our clean water and safe drinking water goals in the context of a changing climate the ideas and response actions outlined here are the product of a cooperative effort among the epa water program managers in national and regional offices a wide range of stakeholders participated in initial listening session meetings illustrations

the climate is changing faster than our cultural practices are adapting to it this open access volume co edited by emily coren a science communicator and hua wang a communication scientist presents a survey of the latest in agency focused climate storytelling together practitioners and scholars across different fields shared their knowledge experience and insight about how stories can be designed and told to engage enable and empower individuals and communities in climate communication and action you will learn a wide range of narrative strategies and exemplary applications of climate storytelling in terms of professional practices e g education literature journalism popular media genres and formats e g drama comedy fiction media platforms e g television radio mobile and communication modalities e g text visual audio multisensory entertainment education has been proven over decades to be an effective tool for social and behavior change in the public health sphere and has not yet been applied at scale to the massive ongoing climate related disasters that we need to solve now fast there is an urgent need to rapidly apply and adapt public engagement tools for climate communication to speed up our response times for climate change mitigation and adaptation this book takes a snapshot of where climate storytelling is currently at describes where it fits within a climate communication landscape and supports the next steps of its development it facilitates the of creation climate storytelling efficiently by sharing and amplifying what is working well and building collaborations between practitioners and researchers this is an open access book

the world trade organization is undergoing an existential crisis trade links the world not only through the flow of international commerce in goods services and ideas but also through its economic environmental and social impacts trade links are supported by a wto trading system founded on rules established in the 20th century which do not account for all the modern changes in the global economy james bacchus a founder of the wto posits that this global organization can survive and continue to succeed only if the trade links among wto members are revitalized and reimagined he explains how to bring the wto into the twenty first century exploring the ways it can be utilized to combat future pandemics and climate change and advance sustainable development all while continuing to foster free trade this book is among the first to comprehensively explain the new trade rules needed for our new world

pub norden org temanord2022 562 nature based solutions nbs are ways to tackle climate change while at the same time strengthening biodiversity and delivering ecosystem services to humans the nordic region aims to become the most sustainable in the world by 2030 that is why the nordic council of ministers launched a research programme running from 2021 24 encouraging the nordic countries to work together and enhance the knowledge base on nature based solutions restoration climate mitigation and blue green infrastructure s ituation is the first of five projects under this programme the project report aims to

synthesize and present existing research on nbs relevant in the nordic context including relevant projects and experiences policies knowledge gaps and cost benefit analyses

today it has become strikingly obvious that companies no longer operate in an environment where only risk return and volatility describe the business environment the business has to deal with volatility plus uncertainty plus complexity and ambiguity vuca that requires new qualities competencies frameworks and it demands a new mind set to deal with the vuca environment in investment funding and financing this book builds on a new megatrend beyond resilience called anti fragility we have had the black swan financial crisis and the red swan covid the bank for international settlement is preparing for regenerative capitalism block chain based analysis of financial streams and is aiming to prevent the green swan the climate crisis to lead to the next lockdown in the light of the un 17 sustainable development goals what is required is theories of change written by experts working in the fields of sustainable finance impact investing development finance carbon divesting innovation scaling finance impact entrepreneurship social stock exchanges alternative currencies initial coin offerings icos ledger technologies civil action co creation impact management deep learning and transformation leadership the book begins by analysing existing theories of change frameworks from various disciplines and creating a new integrated model the meta framework in turn it presents insights on creating and using theories of change to redirect investment capital to sustainable companies while implementing the sustainable development goals and the paris climate agreement further it discusses the perspective of planetary boundaries as defined by the stockholm resilience institute and investigates various aspects of systems organizations entrepreneurship investment and finance that are closely tied to the mission ingrained in the theory of change as it demonstrates solutions that ensure the parity of profit people and planet through dynamic change can effectively address the needs of entrepreneurs and business by exploring these concepts and their application the book helps create and shape new markets and opportunities

this guide is based on the experiences of the world resources institute with its carbon dioxide reduction commitment and should help other office based organizations understand climate change and the practical steps they can take to measure and reduce their carbon dioxide emissions

citizens are caught in a paradox voting levels are falling there are growing feelings of powerlessness social unfairness and yet citizens are constantly told that they have more choice as well as greater freedom and liberty this book brilliantly explains these discrepancies it shows that the new definitions of freedom as responsibility to create prosperity through markets is seriously

distorting citizenship whilst appearing to be unbiased and neutral it exposes inconsistencies in the market based and apolitical vision of our collective future this book outlines how market citizenship involves a new kind of rationality in which citizens are defined as individualized utility maximizers shows how the idea that citizens act primarily to develop their narrow self interest has encouraged the creation of competitive governance mechanisms analyses how market mechanisms are used to decide who are winners and losers from the loss of youth groups funding to global treaties discuss the shortfalls when key contemporary issues are tackled through win win solutions with business working alongside consumers with little or no role for government explains how localism and the devolution of power is being used to support the status quo suggests new kinds of engagement are emerging because markets have undermined politics essential reading for students policy makers and researchers of citizenship within sociology politics economics geography and social policy

this report begins with an overview of climate change and canada's commitments under the framework convention on climate change then reviews national characteristics affecting greenhouse gas emissions the national greenhouse gas inventory and policies measures under the national action program on climate change this is followed by chapters covering a national projection of greenhouse gas emissions to 2020 possible impacts of climate change on canada including implications for water resources health agriculture and forestry as well as canadian initiatives regarding adaptation to climate change financial assistance technology transfer activities related to climate change including international initiatives research monitoring activities related to climate change and education training public awareness initiatives appendices include summaries of federal provincial territorial policies measures affecting greenhouse gas emissions by sector

greenspan outlines the six stages of emotional growth in early childhood and explores the ways in which they are communicated emphasizing parental interaction as the key to a child's healthy emotional maturation

vols 10 11 include meteorology of england by james glaisher as separately paged section at end
