e c abbott was a cowboy in the great days of the 1870 s and 1880 s he came up the trail to montana from texas with the long horned herds which were to stock the northern ranges he punched cows in montana when there wasn t a fence in the territory and he married a daughter of granville stuart the famous early day stockman and montana pioneer for more than fifty years he was known to cowmen from texas to alberta as teddy blue this is his story as told to helena

huntington smith who says that the book is all teddy blue my part was to keep out of the way and not mess it up by being literary because the cowboy flourished in the middle of the victorian age which is certainly a funny paradox no realistic picture of him was ever drawn in his own day here is a self portrait by a cowboy which is full and honest and teddy blue himself says other old timers have told all about stampedes and swimming rivers and what a terrible time we had but they never put in any of the fun and fun was at least half of it so here it is the cowboy classic with the terrible times and the fun which have entertained readers everywhere first published in 1939 we pointed them north has been brought back into print by the university of oklahoma press in completely new format with drawings by nick eggenhofer and with the full original text

granville stuart 1834 1918 is a quintessential western figure a man whose adventures rival those of wyatt earp buffalo bill or sitting bull and who embodied many of the contradictions of america s westward expansion stuart collected guns herded cattle mined for gold and killed men he thought outlaws but he also taught himself shoshone french and spanish denounced formal religion married a shoshone woman and eventually became a united states diplomat in this fascinating biography clyde milner and carol o connor trace stuart s remarkable trajectory from his youth in an iowa agricultural settlement to a mining camp in gold rush california to his rough and tumble life in montana and his rise to prominence as a public figure

this book offers an explosive look at violence in america why it is so prevalent and what and who are responsible david courtwright takes the long view of his subject developing the historical pattern of violence and disorder in this country where there is violent and disorderly behavior he shows there are plenty of men largely young and single what began in the mining camp and bunkhouse has simply continued in the urban world of today where many young armed intoxicated honor conscious bachelors have reverted to frontier conditions violent land combines social science with an engrossing narrative that spans and reinterprets the history of violence and social disorder in america courtwright focuses on the origins consequences and eventual decline of frontier brutality though these rough days have passed he points out that the frontier experience still looms large in our national self image and continues to influence the extent and type of violence in america as well as our collective response to it broadly interdisciplinary looking at the interplay of biological social and historical forces behind the dark side of american life this book offers a disturbing diagnosis of violence in our society

through the work of three women naturalists this book examines how women participated in many scientific endeavours during the 19th century despite being marginalized in a very masculine domain
