master's thesis from the year 2005 in the subject economics international economic relations grade 17 stralsund university of applied sciences language english abstract preface the recent years have been the era of globalization with enormous growth in international trade financial flows and foreign direct investment fdi globalization intensifies interdependence between formerly separated nations however the world seems to be more fragmented between the rich and the poor between the powerful and the powerless and between supporters and opponents of the new global economy current figures reveal the contradiction between those that have managed to benefit from globalization and those that are considered to be the losers of this period a girl born in japan has a 50 percent chance of seeing the 22nd century while a newborn in afghanistan has a 25 percent chance of dying before age 5 the richest five percent of the world's people have incomes 114 times those of the poorest five<sup>1</sup> and the world's richest one percent of people receive as much income as the poorest 57 percent<sup>2</sup> the developing countries are currently facing two major problems the first one is income poverty in order to reduce the share of people living on one dollar a day the per capita income has to grow by 3.7 percent annually according to optimistic estimations however only 24 developing countries have realized these growth rates in the recent years on the other hand more than 127 countries with 34 percent of the world population have not grown at this rate<sup>3</sup> many countries have suffered negative growth and the share of the poor people has increased although the public focused increasingly on the poverty problem in the recent years as it just happened at the live aid concert the second problem is infant mortality 85 countries are on the track to reduce infant mortality to one third of the 1990 level but they comprise less than one quarter of the world population on the other hand 81 percent of the countries with more than 60 percent of the world population will not be able to achieve this goal until 2015 every day more than 30 000 children die of preventable diseases<sup>4</sup> it is dramatic that many countries that will not achieve this goal are among the world's poorest i.e. the least developed countries<sup>1</sup> source undp human development report 2002 oxford university press oxford 2002 page 13<sup>2</sup> source ibidem page 19<sup>3</sup> source ibidem page 17<sup>4</sup> source ibidem

this volume provides an overview of the many ways that economic concepts models and methods have been and can be applied to higher education problems encountered in institutional research the chapter authors are uniquely qualified to provide this perspective all are higher education researchers who have received graduate training in economics and have substantial experience working directly in institutional research the chapters in this volume focus on the economist's perspective on education costs and revenues how economics can inform enrollment management efforts and how institutional researchers can use economics to understand labor market issues for faculty this is the 132nd issue of new directions for institutional research a quarterly journal published by jossey bass click to view the entire listing of titles for new directions for institutional research

kaplan ap macroeconomics microeconomics 2007 includes 2 full length practice tests one for each exam with detailed answer explanations diagnostic tests to target areas for score improvement detailed answer explanations including sample answers for free response questions proven test specific score raising strategies key terminology defined in context concise review of all relevant material not a rehash of an econ textbook but an efficient focus on

the material that frequently appears on the ap macroeconomics microeconomics exams glossary of key terms online component offering extra practice questions and review material

this book draws together the most authoritative articles on development economics published in the past few years is aimed at undergraduate level and is suitable for students with little or no background in economics the main themes include poverty foreign aid agriculture and human capital and amongst those whose work appears can be counted amartya sen jeffrey sachs jagdish bhagwati joseph stiglitz paul romer dani rodrik william easterly robert barro kenneth arrow hernando de soto daron acemoglu muhammad yunus anne krueger abhijit banerjee esther duflo michael kremer and martin feldstein the reader focuses on the most recent and up to date contributions to the field of development economics instead of collecting classic contributions which are already available through many sources the articles chosen reflect recent developments in the discipline for instance in the area of geography and development and include contributions that address recent events the dramatic resurgence of a debt relief movement the development economics reader should be an invaluable resource for all students of the discipline

countries of the world today are in favour of free trade globally before the formation of wto in 1995 the gatt had been trying to achieve free trade throughout the world the similar activity is being done by the wto since its inception in spite of all such efforts many countries in groups are trying to form unions separately to protect their group interest one such group is the saarc the eight south asian nations coalition the present book is the result of sap drs programme of the ugc started in the department of economics north bengal university since 2004 the papers contain social and economic aspects of most of the saarc member countries

contains 168 alphabetically arranged essays that provide information about topics related to economics and includes biographical profiles of nearly one hundred noted economists
