Textbook of Mental Health Nursing Vol 1 e-book

Fully revised for its second edition, the Oxford Handbook of Mental Health Nursing is the indispensable resource for all those caring for patients with mental health problems. Practical, concise and up to date with the latest guidelines, practice and initiatives, this handbook is designed to allow essential information to be quickly accessible to nurses in a busy clinical setting. This handbook contains expert guidance on all aspects of the nurse's role, written by experienced nurses and teachers. It will help you achieve the best possible results for your patients. Summaries of key sections of the Mental Health Act are provided, as well as the Mental Capacity Act. Mental health legislation in Scotland and other UK countries. New material for the second edition includes expanded and revised information on leadership, medications, physical interventions, basic life support, religion, spirituality and faith, and working with older adults, as well as a brand new chapter on contemporary issues in mental health nursing.

Supported by relevant theory, research, policy and philosophy, this second edition of *Psychiatric and Mental Health Nursing: The Craft of Caring* provides a comprehensive overview of the practice of psychiatric and mental health nursing. The concept of the craft of caring dictates that the basis of good nursing practice is a combination of both art and science, encouraging nurses to take a holistic approach to the practice of psychiatric and mental health nursing, reflecting current developments in nursing practice and the understanding of mental health disorders. This edition includes twelve additional chapters, placing more emphasis on specific groups such as children and young people, women, older people, asylum seekers and refugees. Case studies include patients with anxiety, schizophrenia and bipolar disorder, as well as victims of sexual abuse, those with an eating disorder, homeless patients and those with dementia and autism. The book also examines specialist services such as psychiatric liaison and spiritual care, and includes discussion on psychiatric diagnosis and mental health legislation in relation to human rights. This is an essential text for all psychiatric and mental health nurses at the diploma and degree level, as well as qualified mental health nurses seeking to update their knowledge. It will also be a useful reference for professionals in other disciplines such as social work, medicine and psychology.

This handbook brings together authoritative contributions from leading mental health researchers, educators and practitioners to provide a comprehensive text for community mental health nurses in training and practice. In thirty-three chapters, it covers a wide range of topics from the history of the profession to current approaches to specific client groups, organised around three linked themes: professional context, practice issues, education and research. Each chapter includes a summary of key points and suggestions for

further reading and also includes useful appendices listing key professional and voluntary organisations journals internet and mailing lists the handbook reflects the diversity and scope of the role of the cmhn and recognizes the multidisciplinary and service user context in which nurses work it is an essential text for cmhns and mental health nurse educators and offers a useful source of reference for allied professionals

mental health nursing applying theory to practice is a new australian text combining a theoretical approach to mental health nursing with clinical reasoning and a practical framework for real life nursing situations ideal for both clinical and theory mental health course units the text was developed with input from consumers and clinicians and includes the clinical manifestations impacts treatment and management of persons suffering from mental illness chapters on suicide and self harm and mental health first aid provide detailed coverage of these contemporary mental health issues while a chapter on mental state examination mse comprehensively explores mse in a style similar to a traditional psychiatry text and in the context of many different mental health conditions giving students multiple perspectives of presentations critical thinking and review questions challenge students to apply theory to practice and pharmacology is discussed in each disorder chapter helping students to contextualise their learning with coverage of the mental health act 2014 and criteria from the diagnostic and statistical manual of mental disorders fifth edition dsm 5 integrated throughout the text equips students with a working understanding of major mental health disorders and the ability to work practically when engaging with persons suffering from mental illness new print versions of this book come with bonus online study tools on the coursemate express and search me nursing platforms
