year after year readers pulled me aside at events and said i ve never had a problem starting  
i ve started a million things but i never finish them why can t i finish according to studies 92  
percent of new year s resolutions fail you ve practically got a better shot at getting into  
juilliard to become a ballerina than you do at finishing your goals for years i thought my  
problem was that i didn t try hard enough so i started getting up earlier i drank enough  
energy drinks to kill a horse i hired a life coach and ate more superfoods nothing worked  
although i did develop a pretty nice eyelid tremor from all the caffeine it was like my eye  
was waving at you very very quickly then while leading a thirty day online course to help

people work on their goals i learned something surprising the most effective exercises were not those that pushed people to work harder the ones that got people to the finish line did just the opposite they took the pressure off why because the sneakiest obstacle to meeting your goals is not laziness but perfectionism we re our own worst critics and if it looks like we re not going to do something right we prefer not to do it at all that s why we re most likely to quit on day two the day after perfect when our results almost always underperform our aspirations the strategies in this book are counterintuitive and might feel like cheating but they re based on studies conducted by a university researcher with hundreds of participants you might not guess that having more fun eliminating your secret rules and choosing something to bomb intentionally works but the data says otherwise people who have fun are 43 percent more successful imagine if your diet guitar playing or small business was 43 percent more successful just by following a few simple principles if you re tired of being a chronic starter and want to become a consistent finisher you have two options you can continue to beat yourself up and try harder since this time that will work or you can give yourself the gift of done
