critical security methods offers a new approach to research methods in critical security studies it argues that methods are not simply tools to bridge the gap between security theory and security practice rather to practise methods critically means engaging in a more free and experimental interplay between theory methods and practice this recognises that the security practices we research are often methods in their own right as forms of surveillance data mining visualisation and so on and that our own research methods are themselves practices that intervene and interfere in those sites of security and insecurity against the familiar methodological language of rigour detachment and procedural consistency critical security methods reclaims the idea of method as experiment the chapters offer a series of methodological experimentations that assemble concepts theory and empirical cases into new frameworks for critical security research they show how critical engagement and methodological innovation can be practiced as interventions into diverse instances of insecurity and securitisation including airports drug trafficking peasant struggles biometrics and police kettling the book will be a valuable resource for students and researchers in critical security studies politics and international relations

this textbook surveys new and emergent methods for doing research in critical security studies filling a gap in the literature the second edition has been revised and updated this textbook is a practical guide to research design in this increasingly established field arguing for serious attention to questions of research design and method the book develops accessible scholarly overviews of key methods used across critical security studies such as ethnography discourse analysis materiality and corporeal methods it draws on prominent examples of each method s objects of analysis relevant data and forms of data collection the book s defining feature is the collection of diverse accounts of research design from scholars working within each method each of which is a clear and honest recounting of a specific project s design and development this second edition is extensively revised and expanded its 33 contributors reflect the sheer diversity of critical security studies today representing

various career stages scholarly interests and identities this book is systematic in its approach to research design but keeps a reflexive and pluralist approach to the question of methods and how they can be used the second edition has a new forward looking conclusion examining future research trends and challenges for the field this book will be essential reading for upper level students and researchers in the field of critical security studies and of much interest to students in international relations and across the social sciences

although prominent some would argue pre eminent within the modern political lexicon the concept of security is complex and contested while the meaning and reference point of security was once largely taken for granted within international relations the past thirty years or so have witnessed the growth of a range of approaches that refuse to take this concept and its application as self evident instead serious scholarship often grouped under the rubric of critical security studies has sought to question and

this textbook introduces students to the sub field of critical security studies through a detailed yet accessible survey of emerging theories and practices this third edition contains two new chapters on ontological security and in security and the everyday and has been fully revised and updated written in an accessible and clear manner critical security studies offers a comprehensive and up to date introduction to critical security studies locates critical security studies within the broader context of social and political theory evaluates fundamental theoretical positions in critical security studies against a backdrop of new security challenges the book is divided into two main parts part i approaches surveys the newly extended and contested theoretical terrain of critical security studies constructivist theories critical theory feminist and gender approaches postcolonial perspectives poststructuralism and international political sociology ontological security and securitisation theory part ii issues examines how these various theoretical approaches have been put to work in critical considerations of environmental and planetary security health human security and development information technology and warfare migration and border security in security and the everyday and terror risk and resilience the historical and geographical scope of the book is deliberately broad and each of the chapters in part ii concretely illustrates one or more of the approaches discussed in part i with clear internal referencing allowing the text to act as a holistic learning tool for students this book is essential reading for upper level students of critical security studies and an important resource for students of international global security political theory and international relations

focusing on critical approaches to security this new textbook offers readers both an overview of the key theoretical perspectives and a variety of methodological techniques with a careful explication of core concepts in each chapter and an introduction that traces the development of critical approaches to security this textbook will

encourage all those who engage with it to develop a curiosity about the study and practices of security politics challenging the assumptions of conventional theories and approaches unsettling that which was previously taken for granted these are among the ways in which such a curiosity works through its attention to the fact that and the ways in which security matters in global politics this work will both pioneer new ways of studying security and acknowledge the noteworthy scholarship without which it could not have been thought this textbook will be essential reading to advanced undergraduate and postgraduate students of critical security studies and highly recommended to students of traditional security studies international relations and politics

this book offers an introduction to security studies it features an impressive breadth and depth of coverage of the different theoretical approaches to the study of security and the ever evolving range of issues that dominate the security agenda in the 21st century

critical approaches to international security is the first book to offer a wide ranging and comprehensive analysis of the field of critical security studies it maps the evolution of debates about security from the end of the cold war to the present day arguing that the conceptual and methodological innovations of critical security studies are crucial for understanding many contemporary international developments organized around a range of core concepts that have defined various critical approaches the book guides the reader through a wide range of literature and debates topics covered include the relationship between security and change identity the production of danger trauma human insecurity and emancipation the book explores the meaning and use of these concepts and their relevance to real life situations ranging from nato expansion conflict in the balkans migration suffering in war failed states and state building the war on terror and hurricane katrina this book makes a significant and original contribution to the study of international relations and security studies and will be of great value to students and scholars of international relations and security studies jacket

laura sjoberg positions gender and gender subordination as key factors in the making and fighting of global conflict through the lens of gender she examines the meaning causes practices and experiences of war building a more inclusive approach to the analysis of violent conflict between states considering war at the international state substate and individual levels sjoberg's feminist perspective elevates a number of causal variables in war decision making these include structural gender inequality cycles of gendered violence state masculine posturing the often overlooked role of emotion in political interactions gendered understandings of power and states mistaken perception of their own autonomy and unitary nature gendering global conflict also calls attention to understudied spaces that can be sites of war such as the workplace the household and even the bedroom her findings show gender to be a linchpin of even the most tedious and seemingly bland tactical and logistical decisions

in violent conflict armed with that information sjoberg undertakes the task of redefining and reintroducing critical readings of war s political economic and humanitarian dimensions developing the beginnings of a feminist theory of war

essay from the year 2009 in the subject politics political theory and the history of ideas journal grade 73 von 100 punkten the university of sydney center for international security studies course new security challenges language english abstract this essay deals about the approaches of critical security studies css to the the war on terrorism wot to understand the approaches of css it is important to know that this view has its origin in the critique of the traditional approaches realism and liberalism a consequence of this is css do not see the state as most important referent object in contrast to realism and liberalism it is the approach of css to look for alternative referent objects beside the state but css are not just one approach it is divided into different schools or drifts this essay wants to research how these schools and drifts analyse the wot central to this are the paragraphs 2 and 3 which deal about welsh school and copenhagen school these two are most important drifts inside css the other drifts will be discussed in paragraph 4 afterwards in paragraph 5 it will be pointed out where the failures and critic points of css in general as well as in its drifts are even if the impacts in its drifts differ css is based on the critical theory frankfurt school habermas and on poststructuralism foucault this means on the one hand that css does not take the state as the most important referent object but thinks more broadly about the reasons for in security and on the other hand css researchers according to critical theory claim reality to be socially constructed and want to look behind the empiricist world in context of wot we will see later that this means a critic on official or governmental standpoints the debates between css and governmental or traditional approaches start at the definition of terrorism definitions of terrorism are broadly discussed in practical politics and in international relations

there is no term so heavily contested in social science literature nomenclature than development this book brings indigenous perspectives to african develop ment it is argued that contrary to development as we know it not working a greater part of the problem is that conventional development approaches that work have in fact not truly been followed to the letter and hence the quagmire all this is ironic since everything we do about our world is development so how come there is difficult knowledge when it comes to learning from what we know i e what local peoples do and have done for centuries as a starting point to recon structing and reframing development in getting our heads around this paradox we are tempted to ask more questions how do we as african scholars and research ers begin to develop home grown solutions to our problems how do we pioneer new analytical systems for understanding our communities and offer a pathway to genuine african development i e indigenist african development see also yankah 2004 how do we speak of indigenist development mindful of global developments and entanglements around us can we afford to pursue development still mired in a catch up scenario are we in a race with the development world and where do we see this race ending or where do we define as the finishing
