as cities evolve architects are constantly searching for appropriate architectonic solutions and in this book the authors present a systematic examination of innovative single family houses and residential buildings in the context of presentday cities the latest developments are reviewed in essays and thematic chapters discuss such topics as lowenergy building the use of prefabricated materials or low budget building a range of international examples from architects such as wiel arets shigeru ban ben van berkel kees christiaanse philippe gazeau frank o gehry steven holl hans kollhoff morger degelo mvrDV jean nouvel kas oosterhuis illustrate the subjects discussed housing and single family housing were previously published separately each proving hugely

popular now both volumes have been incorporated into a single lowpriced edition

the idea and function image and built reality of the house vary from culture to culture locale to locale generation to generation demographic to demographic houses do much more than provide a roof over our heads they are sanctuaries havens our private kingdoms our personalized cocoons they are backdrops to our everyday lives they are status symbols they are economic indicators for architects they are dream jobs test beds manifestos only by understanding the predominant reality of and the prevailing attitudes toward the house can we appreciate the great leaps and changes it is and always has been undergoing the houses in this book represent new ideas about how to build houses how they are rooted and root us to their locale and how we use and regard them the first chapter tectonics features houses that explore the novel application of materials and building techniques in the domestic realm next context showcases houses that actively engage in their site drawing inspiration whether in texture form or topography from their surrounding landscape lastly revolutions addresses the significant shifts our lifestyles have undergone and how the house responded to them house features twenty recently built houses that have been designed by some of today s leading architects including steven holl toshiko mori alberto kalach and rick joy by leading readers to the cutting edge of today s architecture authors ho and barreneche relate today s building trends and hint at what awaits us in the future featuring more than 200 color photographs and plans house is the perfect book for house enthusiasts worldwide

this coffee table style book features 100 architect designed homes from around the world descriptive text floor plans and photos describe each project exteriors and interiors are featured publisher

in architecture as in food local is an idea whose time has come of course the idea of an architecture that responds to site draws on local building traditions materials and crafts and strives to create a sense of community is not recent yet the way it has evolved in the past few years in the hands of some of the world s most accomplished architects is indeed defining a new movement from the rammed earth houses of rick joy and pacific northwest timber houses of tom kundig to the community built structures of rural

studio and francis kéré designers everywhere are championing an architecture that exists from in and for a specific place the stunning projects presented here in the first book to examine this global shift were featured at the thirteenth and final ghost conference held in 2011 organized by nova scotia architect educator and local practitioner brian mackay lyons the result is the most complete collection of contemporary regionalist architecture available with essays by early proponents of the movement including kenneth frampton juhani pallasmaa and pritzker prize winning architect glenn murcutt

the houses in this volume share a common point of origin all draw upon the established principles of american modernism at the same time they differ markedly from one another and in so doing demonstrate the diversity implicit in that style at one end of the spectrum are the cerebral unviolated sculptural forms of richard meier s grotta house at the other end is the rugged expressionism of eric owen moss s lawson western house the collection represents both established american architects such as meier and john lautner such internationally known contemporaries as stephen holt mark mack and arquitectonica and newcomers carlos zapata and ukz book jacket title summary field provided by blackwell north america inc all rights reserved

the highly collectable volumes in this series each focus on a single important contemporary building selected for its unique character innovative design or technical genius buildings of various types and sizes are included from small residences to expansive museums detailing the evolution of the design and the construction process from initial concept to finished building featured are photographs sketches drawings and details alongside an essay by the architect on the design process and an essay by a well known architectural critic on the project s design significance the studio residence of wendell burnette architects is designed to be like an oasis in the arizona desert with an interior garden in the entryway full of light shade and water wendell burnette s travels in europe and mexico are evident in the international timeless style found in his architecture the building is the physical embodiment of the firm s philosophy which is the desire to create spaces that engage people wendell burnette delivers architecture that is both uniquely appropriate and timelessly valuable to the client and the user wendell burnette architects is based in phoenix arizona
