since the early 2000s storytelling as a means of managerial communication has been increasingly advocated with a focus on the management practices of leadership change and organizational culture most research on storytelling in management practice derives from practitioner experience but little is known about the specific dynamics behind storytelling as a tool for managerial communication this book derives from one of the first research studies into storytelling in management practice which sought to evaluate the assumed but not necessarily proven effectiveness of storytelling as a management tool building on existing theories of narrative and storytelling in organizations the book explores how managers use storytelling in their daily practice revealing that it can be employed both purposively like a tool and perceptively spontaneously and intuitively the book explains that storytelling has different functions in management practice at different levels of the organization such as creating direction for the organization translating strategic messages into operational ones and supporting the professional development of staff shaping the organization's social fabric through the sharing of personal stories aided by a wealth of interviews and case studies storytelling in management practice reveals an analysis of the dynamic relationship between story teller audience and organizational context as such it will be useful for students and researchers working across a variety of sub disciplines including leadership organizational behaviour and business communication

projects are important to industry but project performance continually disappoints stakeholder expectations organizations react to this performance problem in many ways and purchase consultancy training methods and tools as possible solutions there is no published evidence that any of these solutions are consistently successful in improving project performance this thesis answers the question what can be done to improve project management practices and thus project performance by demonstrating that a novel form of continuous action research can contribute such evidence

armstrong's handbook of human resource management is the classic text for all students and practitioners of hrm providing a complete resource for understanding and implementing hr in relation to the needs of the business as a whole it includes in depth coverage of all the key areas essential to the hr function the 12th edition has been radically updated to create a cutting edge textbook which encourages and facilitates effective learning comprehensive online support material is provided for the instructor student and now also the practitioner providing a complete resource for teaching and self learning the text has been updated to include all the latest developments in hrm and now includes two new sections covering hr skills and toolkits

project practice has undergone significant changes requiring new ways of thinking about and managing projects the single focus on the staged delivery of artefacts is gradually being replaced by a wider interest in stakeholders value benefits and complexity as a result there is a growing interest in the development of practitioner capabilities grounded in the recognition that dealing with permeable boundaries and unstructured situations transcends normative processes modern practitioners increasingly utilise deliberative and reflective approaches often challenging received wisdom and traditional interpretations this volume provides a sampling of some of the best writing in the project domain enabling readers to access a wider group of authors ideas and perspectives key topics covered include agility and programme management planning people business cases contracts teams sponsorship collaboration strategy patterns context change and benefits the main aims of the collection are to reflect on the state of practice within the discipline to propose new extensions and additions to good practice to offer new insights and perspectives to distil new knowledge and to provide a way of sampling a range of the most promising ideas perspectives and styles of writing from some of the leading thinkers and practitioners in the discipline
