this book repositions early modern catholic abroad colleges in their interconnected regional national and transnational contexts from the sixteenth century irish english and scots catholics founded more than fifty colleges in france flanders spain portugal the papal states and the habsburg empire at the same time catholics in the dutch republic the scandinavian states and the ottoman empire faced comparable challenges and created similar institutions until their decline in the late eighteenth century tens of thousands of students passed through the colleges traditionally these institutions were treated within limiting denominational and national contexts this collection at once building on and transcending inherited historiographies explores the colleges institutional interconnectivity and their

interlocking roles as instruments of regional communities dynastic interests and international catholicism

index of archaeological papers published in 1891 under the direction of the congress of archaeological societies in union with the society of antiquaries

this book is the beginning of a much needed discussion about the experiences and beliefs of irish priests it provides a cultural analysis of these men including the diverse and oftentimes contradictory sides they find themselves on regarding philosophical theological and pastoral issues
