ideally the public fund behind this insurance would be derived from a progressive income tax
book jacket

pitirim a sorokin 1889 1968 was one of the most original important and controversial figures in american sociology his spectacular rise from a peasant childhood in czarist russia to the olympian heights of harvard university provides an unlikely and fascinating lens for examining the history of an entire discipline and as barry johnston shows his equally dramatic fall from favor and unexpected resurrection illuminate both sorokin s life and the tempestuous world of academic politics an outspoken revolutionary and secretary to alexander kerensky sorokin was imprisoned

and ordered executed by lenin then reprieved and exiled during the 1920s he flourished as a teacher and scholar at the university of minnesota where he published several pioneering books on the russian revolution social mobility sociological theory and rural sociology harvard president a lawrence lowell was so impressed that he recruited sorokin to chair the university s first department of sociology from 1930 to 1944 the department prospered under sorokin s leadership attracting an entire generation of young scholars who in their own right would have a profound impact on the discipline in this period sorokin published several volumes of his magnum opus social and cultural dynamics and became embroiled in a bitter battle with rival talcott parsons for control of the department parsons ultimately deposed sorokin and transformed sociology into the department of social relations sorokin nevertheless stayed on at harvard where he established the center for creative altruism but otherwise continued to work in relative obscurity finally in 1963 after years in eclipse sorokin was recognized for his accomplishments when he was elected president of the american sociological association during a long and distinguished career sorokin amassed an amazingly diverse and substantial body of work much of which set the standard for the field at the same time he broke with the conventions of sociology frequently ridiculing and taunting his less adventurous colleagues for his heresy the flamboyant sorokin was condemned and driven to the periphery of a profession anxious for legitimacy as a science as a result sorokin s ideas have been consistently ignored and misunderstood for more than a quarter century based on exhaustive research in sorokin s papers and the harvard archives as well as interviews with sorokin s surviving family members former students and colleagues this biography restores sorokin to his rightful place in the pantheon of american intellectuals

part i general systems research overview 1 general systems theory kenneth e boulding 2 general systems theory a critical review ludwig von bertalanffy 3 cybernetics in history norbert wiener

for decades political scientists studying the court have adopted behavioral approaches and focused on the relatively narrow question of how the justices policy preferences influence their voting behavior this emphasis has illuminated important aspects of supreme court politics but it has also left unaddressed many other important questions about this unique and fascinating institution drawing on the new institutionalism in the social sciences the distinguished contributors to this volume attempt to fill this gap by exploring a variety of topics including the court s institutional development and its relationship to broader political contexts such as party regimes

electoral systems social movements social change legal precedents political identities and historically evolving economic structures the book's initial chapters examine the nature of the court's distinctive norms as well as the development of its institutional powers and practice a second section relates the development of supreme court politics to the historical development of other political institutions and social movements concluding chapters explore how its decision making in particular areas of law or periods of time is influenced by and influences its socio political milieu these contributions offer provocative insights regarding the court's role in maintaining or disrupting political and economic structures as well as social structures and identities tied to ideology class race gender and sexual orientation the supreme court in american politics shows how we can develop an enriched understanding of this institution and open up exciting new areas of research by placing it in the broader context of politics in the united states

few american social programs have been more unpopular controversial or costly than aid to families with dependent children afdc its budget now in the tens of billions of dollars has become a prominent target for welfare reformers and outraged citizens indeed if public opinion ruled afdc would be discarded entirely and replaced with employment yet it persists steven teles's provocative study reveals why and tells us what we should do about it teles argues that over the last thirty years political debate on afdc has been dominated by an impasse created by what he calls ideological dissensus an enduring conflict between opposing cultural elites that have largely disregarded public opinion thus he contends one must examine the origins and persistence of elite conflict in order to fully comprehend afdc's immunity to the reform it truly needs the kind that unites the elements of order equality and individualism central to the american creed one of the first studies to analyze afdc from a new democrat position whose welfare sheds new light on the controversial role of the courts in afdc the rise of welfare waivers in the mid 1980s the failure of the clinton welfare plan and the victory of block granting over policy oriented welfare reform teles however goes beyond mere critical analysis to advocate specific approaches to reform his thoughtful call for compromise built around the centrality of work individual responsibility and opportunity offers a means for dissolving dissensus and genuine hope for changing an outdated and ineffectual welfare system based on interviews with participants in the afdc policymaking process as well as an unparalleled synthesis of the voluminous afdc literature whose welfare will appeal to a wide array of welfare scholars policymakers and citizens eager to better understand the tumultuous history of this problematic program and how it might fare in the wake of the fall elections

in twelve essays influential scholars in political science explore the meaning of political leadership from the kaleidoscopic perspectives of the leaders institutions goals procedures problems and traditions involved the approaches as varied as the subject itself coalesce around the central question of how leaders interact with transform or are controlled by the organizations they lead

this is the first human behavior and social environment hbse book to truly integrate and emphasize multicultural material throughout the chapters and to provide readers with an introduction to the realities of practice with diverse populations it provides comprehensive balanced and in depth coverage of the subject matter rather than using a single theoretical approach

this extremely versatile handbook written for students and practitioners taps current treatment and assessment research to provide up to date coverage of emotional and behavioral disorders major dsm iv tr diagnostic categories mmpi 2 correlates and other test response p treatment options diagnostic concepts and observations are linked with specific assessment and test data for diagnostic categories this is then integrated with recommended intervention procedures in a single volume the authors have synthesized an abundance of information and presented it in a manageable and accessible manner their extensive experience in clinical and forensic psychology teaching conducting research interacting with clients working in the criminal justice system highly qualifies them to know and present the kind of practical information students and practitioners need additional outstanding features emphasizes multimodal assessment and treatment includes extensive discussions of clinical challenges such as suicidal clients the criminal personality deception and malingering offers bibliotherapy reading assignments and appropriate relaxation techniques for various types of clients provides coverage of legal issues competency criminal responsibility and civil commitment presents useful tips on case preparation and professional practice in the office and the courtroom

a fascinating look at the rise and growing popularity of the automobile during the first half of twentieth century america which brought with it a dark undercurrent on the one hand americans embraced the newfound sense of freedom and mobility embodied by the automobile on the other they grew increasingly anxious about and fearful of the enormous threat that cars and car accidents posed to public safety

here s quick access to more than 490 000 titles published from 1970 to 1984 arranged in dewey sequence with sections for adult and juvenile fiction author and title indexes are included and a subject guide correlates primary subjects with dewey and lc classification numbers these cumulative records are available in three separate sets
