the main objective of this book is to provide an innovative set of concepts and tools regarding company  
management internal and external stakeholders and social responsibilities reflecting the necessities and  
opportunities generated by the digital transformation the transition to a knowledge based economy and  
the covid 19 crisis the book based on a holistic vision and contextual approach of business contributes  
to the development of company management and stakeholder and social responsibility theories and

David B Werther William B 2013 Paperback practices being structured in 12 chapters the original company management vision approaches and tools

are based on three pillars a new manager relevant stakeholder rather than manager subordinate managerial paradigm a new type of company social responsibility rather than corporate social responsibility and a new concept of company relevant stakeholder rather than that of salient stakeholders the book contains two innovative managerial mechanisms the managerial synapse and company relevant stakeholders based management system able to help companies and stakeholders face successfully the challenges of digital transformation and the covid 19 crisis and to generate greater organization functionality and performance the book will be of interest to company managers and management specialists management academics consultants and researchers and mba students interested in a style of management with social responsibility at the forefront

blending theory with practical application strategic corporate social responsibility third edition is a comprehensive csr and strategy text as such it supports courses taught either as standalone electives or as core components of the business school curriculum across all discipline areas integral to the book s unique format is its mix of theory and practical application divided into two parts after five chapters that provide an overview of the field core concepts and practical challenges the second half of the book illustrates the extensive and dynamic nature of csr via 21 detailed issues and case studies the cases capture contentious debates across the spectrum of csr topics that culminate with a series of questions designed to stimulate further investigation and debate

while skeptics once saw the concept of business ethics as an oxymoron modern businesses are proving them wrong success depends not only on educating young professionals about ethical practices but on the implementation of these practices in all aspects of a company the handbook of research on business

**David B Werther William B 2013 Paperback**  
ethics and corporate responsibilities explores the fundamental concepts that keep companies successful

in the era of globalization and the internet investigating the implementation of best practices and how ethics can be taught to the next generation of business experts this handbook is an essential reference source for students academics business managers or anyone interested in the increasingly interdisciplinary field of business ethics and its applications in the world today

strategic corporate social responsibility sustainable value creation redefines corporate social responsibility csr as being central to the value creating purpose of the firm based on a theory of empowered stakeholders this bestselling text argues that the responsibility of a corporation is to create value broadly defined in this new fourth edition author david chandler explores why some firms are better at csr and how other firms can improve their csr efforts keep your course content up to date subscribe to david chandler s csr newsletters by e mailing him at david chandler ucdenver edu the newsletters are designed to be a dynamic complement to the text that can be used for in class discussion and debate past newsletters are archived as a freely available resource for instructors and students at strategiccsr sage blogspot com

over the last decade the question of the relationship between organisations and society has been subject to much debate often of a critical nature the decade has seen protests concerning the actions of organisations exposures of corporate exploitation and unfolding accounting scandals at the same time ethical behaviour and a concern for the environment have been shown to have a positive correlation with corporate performance the nature of corporate social responsibility is therefore a topical one for businesses and academics there are however many different perspectives upon what is meant by corporate social responsibility and how this might be applied within organisations this book explores

some of these different perspectives based upon the experiences of different people in different parts of

**David B Werther William B 2013 Paperback**

the world there has been much written about globalisation some of it positive and much of it negative it is a subject which arouses definite opinions despite the fact that the word globalisation is part of the title of this book it is not our intention to contribute to this debate instead we use the word globalisation in its original sense to represent the ubiquity of the concern for corporate social responsibility csr which is the subject matter of this book specifically we are concerned with the social contract between an organisation and its stakeholders it is apparent that any actions which an organisation undertakes will have an effect not just upon itself but also upon the external environment within which that organisation resides in considering the effect of the organisation upon its external environment it must be recognised that this environment includes both the business environment in which the firm is operating the local societal environment in which the organisation is located and the wider global environment effectively therefore there is a social contract between organizations and their stakeholders recognition of the rights of all stakeholders and the duty of a business to be accountable in this wider context therefore has been largely a relatively recent phenomenon the economic view of accountability only to owners has only recently been subject to debate to any considerable extent in the current environment there is a need to debate this issue and its implications this book therefore recognises the international scope of the interest in corporate social responsibility both through the contributions made by the authors of the respective chapters who come from various parts of the world and also through the international importance of the perspectives offered by these contributors in doing so the various authors demonstrate that corporations are a part of society just as much as each of us is as a individual furthermore they demonstrate that the issues and concerns are not local ones but are international in scope and concern us all the contributions to this book provide a representation of the range of concern for this relationship

**David B Werther William B 2013 Paperback**  
and the range of topics which fall within the subject matter of csr among the authors who have

contributed to this book are representatives from every continent and from a wide range of disciplines the topics which are considered in the various chapters are equally diverse

at present corporate social responsibility csr for some may not be more than an attitude can it be more what degree of commitment can we reasonably expect of corporations in the struggle to eradicate poverty promote human rights halt climate change and reverse ongoing environmental destruction it is not a question of power more than half of the worlds top 100 economies are corporations not nation states whatever can be done to fix the world s problems corporations are in the best position to do it back cover

corporate social responsibility in the arctic considers the new trends and frontiers of corporate social responsibility csr studies that are shaping the future of global business strategy and ethics this book systematically approaches the csr framework of internal and external factors and their impact on the social responsibility of businesses within the sensitive environment of the arctic it presents traditional and contemporary models of csr through case studies of the eight arctic nations and explores the debates concerning social responsibility and ethical dilemmas related to social and environmental aspects of business operations society and ecosystems arruda and johannsdottir also review approaches for engaging stakeholders in social responsibility socio environmental standards and sustainability according to frameworks like the un sustainable development goals the un global compact the oecd guidelines for multinational enterprises and the global reporting initiative but also according to the new csr strategy in the arctic based on circular economy blue economy smart specialization knowledge intensive entrepreneurship and new parameters of education overall this book examines the ways in

**David B Werther William B 2013 Paperback**  
which the changing climate and rich natural resources of the arctic provide unique opportunities and

challenges for businesses and societies this book will be of great interest to students and scholars of csr sustainable business and business ethics

blending theory with practical application this comprehensive text supports courses at the intersection of corporate social responsibility csr corporate strategy and public policy part i provides an overview of the field defining csr and placing it in the context of wider corporate strategy part ii contains chapters on csr issues related to the organization the economy and society and provides detailed case studies on a variety of well known firms adopting a stakeholder perspective the authors explore csr issues within the complex global business environment in which corporations operate today

an investigation of the effects of an increasing retreat towards isolationism which is developing in the world the research takes places at global regional industrial and local levels in locations around the world to arrive at an analysis

over the last decade the question of the relationship between organisations and society has been subject to much debate often of a critical nature the decade has seen protests concerning the actions of organisations exposures of corporate exploitation and unfolding accounting scandals at the same time ethical behaviour and a concern for the environment have been shown to have a positive correlation with corporate performance the nature of corporate social responsibility is therefore a topical one for businesses and academics there are however many different perspectives upon what is meant by corporate social responsibility and how this might be applied within organisations this book explores some of these different perspectives based upon the experiences of different people in different parts of

the world there has been much written about globalisation â some of it positive and much of it negative

it is a subject which arouses definite opinions despite the fact that the word globalisation is part of the title of this book it is not our intention to contribute to this debate instead we use the word globalisation in its original sense to represent the ubiquity of the concern for corporate social responsibility csr which is the subject matter of this book specifically we are concerned with the social contract between an organisation and its stakeholders it is apparent that any actions which an organisation undertakes will have an effect not just upon itself but also upon the external environment within which that organisation resides in considering the effect of the organisation upon its external environment it must be recognised that this environment includes both the business environment in which the firm is operating the local societal environment in which the organisation is located and the wider global environment effectively therefore there is a social contract between organizations and their stakeholders recognition of the rights of all stakeholders and the duty of a business to be accountable in this wider context therefore has been largely a relatively recent phenomenon the economic view of accountability only to owners has only recently been subject to debate to any considerable extent in the current environment there is a need to debate this issue and its implications this book therefore recognises the international scope of the interest in corporate social responsibility both through the contributions made by the authors of the respective chapters who come from various parts of the world and also through the international importance of the perspectives offered by these contributors in doing so the various authors demonstrate that corporations are a part of society just as much as each of us is as a individual furthermore they demonstrate that the issues and concerns are not local ones but are international is scope and concern us all the contributions to this book provide a representation of the range of concern for this relationship and the range of topics which fall within the subject matter of csr among the authors who have

David B Werther William B 2013 Paperback contributed to this book are representatives from every continent and from a wide range of disciplines

the topics which are considered in the various chapters are equally diverse

this study explores the current state of regional co operation in the asia pacific region and the development policy challenges involved in managing the effects of increasing globalisation it focuses on four key areas of trade finance transport and information and communications technology ict issues discussed include whether the eu can provide an integration model for the region regional co operation arrangements such as asean and saarc as well as a number of recent initiatives including the growing array of preferential trade agreements the asian bond market proposals the digital solidarity agenda the asian highway and the trans asian railway

this comprehensive text spotlights major contemporary and international topics in business ethics the text equips readers with practical guidelines to apply to the ethnical dilemmas they will ultimately face

there is considerable turmoil in the textiles and clothing industries as a result of the phasing out of quotas by canada norway usa and the eu and the ability of china to disproportionately profit from the new freedom of trade dealing with the problems requires integrated strategies from the global to local level and cooperation between governments and social partners to aid this process the ilo is calling a tripartite meeting of governments employers and workers organisations this report has been prepared for discussion at that meeting it looks at the implications of the phasing out of quotas and potential strategies for fair globalization

examines the reasons for the emergence of ethical codes and the phenomenon of self regulation within the context of globalization and looks at the role of national governments international government

David B Werther William B 2013 Paperback  
institutions and other international organisations in shaping and enforcing them discusses the

implications of these developments for corporate governance and the changing roles of national and international institutions in the regulation of international commerce

business and human rights in the global economy is a collection of essays that looks at different debates surrounding business and human rights the contributors take legal political science and human rights perspectives sections address the history of the human rights regime corporate social responsibility and practice economic sectors with major human rights challenges the business and human rights discourse the un guiding principles on business and human rights book jacket

pandemics and human safety offers a contemporary approach to understanding the vast impact of pandemics on human security this book explores various types of human security emphasizing the critical role of media in safeguarding it we delve into the implications of covid 19 and how it has reshaped human security across the globe each chapter is designed to provide actionable insights and practical solutions to overcome pandemic related challenges we discuss how societies are adapting to the new normal featuring policy recommendations from different countries the book highlights modern tools and technologies supported by eye catching visuals to enhance comprehension by the end of this book readers will have a thorough understanding of human security during pandemics equipped with strategies to manage future crises effectively

although commitments to leadership ethics and social responsibility are evident individuals and companies are falling short in combining these duties into policies and cultures that guide behaviour and decisions this text provides the leading thinking on these issues
