ce somptueux ouvrage offre une vue d'ensemble de l'oeuvre et de la carrière de ce grand maître verrier américain principal propagateur de l'art nouveau aux États-Unis. Il comprend des illustrations de ses fameuses lampes Tiffany mais aussi d'émaux, de vases, de bijoux et autres objets décoratifs.

It has been over ten years since the release of the first edition. Over this time, the dilemmas for the sexual offender, including their visceral and virtual manifestations, have captured the imagination of the public, have rewritten the subdiscipline of behavioral sciences and the law, and have led to new technologies in the assessment, diagnostic, and treatment decision sciences. These dilemmas circulate in the marketplace of conspicuous digital consumerism that stylizes and commercializes the sex offender industry through society's ubiquitous infotainment-driven and carnival-like outlets. This second edition will act as the antidote to the voyeurism that addictively feeds on the dramatizations that caricature the victims, assailants, and predicaments that constitute the dilemmas for the sexual offender. The authors systematically probe and dissect the boundaries of their topic with erudition and insight. This acumen consists of psychiatric, legal, moral, and bio-social realms of inquiry and analysis. Old questions about the nature of evil, women in society, violence, and mental illness, and treatment and recovery receive fresh attention based on the latest empirical evidence. New chapters address emergent forms of deviant sexuality, e.g., cyber-offending, erotic and sadistic psychopathy, and child molesting clergy. New sections illuminate existing forms of aberrant sexuality, e.g., moral development and necrophilia, moral reasoning and sex offenders, and the psychodynamics of serialized lust murder. This state-of-the-art text, replete with cutting-edge case illustrations, demonstrates how medicine, law, and culture are inextricably and sometimes inexplicably bound together. It will serve as an outstanding resource for psychiatrists, lawyers, criminologists, policy analysts, and forensic mental health professionals, as the authors expertly reveal the world of sexual offenders.

The widespread adoption of smartphones has led to an explosion of mobile social media data: more than a billion messages per day that continuously track location, content, and time. Social media in the contemporary city focuses on the effects of social media on local communities and urban space in a variety of political and economic settings related to social activism, informal economic activity, public art, and global extremism. The book covers events ranging from Banksy art installations, mobile food trucks, and underground restaurants to a Black Lives Matter protest, the Christchurch mosque shootings, and the Pulse nightclub shooting. The interplay between urban space, local community, and social media in each case study requires diverse methodologies that are both computational, i.e., machine learning, social network analysis, and natural language processing, and ethnographic, i.e., semi-structured interviews, thematic analysis, and site analysis. The book views social media not as a replacement for the local community or urban space but rather as a translation of the uses and meanings of all three realms. The book will be of interest to students, researchers, and instructors in a number of disciplines, including urban design, planning, media studies, geography, and communications.

Creative methods are a shortcut to what we didn't know we knew in working from a student's or client's own imagination and psychological material. A person discovers who they are and what they need to expand and move forward. This enriching and inspiring book on creative methods demonstrates the power and effectiveness of the creative approach in guidance and counselling settings. The twenty chapters in this volume focus on the importance and joys of play, creative expression, and imagination in effective learning as we develop, observe, and
