this book takes a novel approach to the forest school conversation taking a critical look at the various tensions and difficulties that surround forest school practice

interest in forest schools has seen a phenomenal rise in recent years in many countries around the globe with thousands of children now experiencing this new context for learning forest schools have also provided a new focus for researchers wishing to find out more about the opportunities and benefits that can be derived from this specific form of outdoor learning this text brings together a wealth of material from academics independent researchers and practitioners who have explored this topic in detail and will be of interest to academic researchers those undertaking their own research on this and related topics for undergraduate and higher degrees and to practitioners and school leaders who wish to find out more about this intriguing approach to the education of children the chapters in this book were originally published in education 3-13

how can you use the forest school ethos for the benefit of all your students forest school is now being used with a wide range of different age groups and in many different settings and it can address issues such as obesity public health and social wellbeing this book includes case studies that will help to demonstrate how to run forest school sessions with children in older primary classes secondary schools children in urban environments special schools young people in residential homes school refusers young people who have been excluded adults with autistic spectrum disorders family centres anyone interested in how to implement the forest school ethos in their learning environment will be enthused and inspired by this book sara knight is an experienced early years educator and senior lecturer at anglia ruskin university she is a trained forest school practitioner and author of forest schools and outdoor learning in the early years and risk and adventure in early years outdoor play both published by sage

learning outside the classroom is an essential part of early years education and this book looks at the opportunities the forest school experience can offer young children for learning outdoors and how this fits into the early years curriculum by offering clear guidance on what the forest school approach can achieve the book shows you how to incorporate good practice into all outdoor play activities issues examined include what is and what isn't a forest school experience how exercise fresh air and learning outside help counter obesity how forest school can improve behaviour and social skills accommodating different learning styles examples of forest school in practice this is an inspirational read for anyone working in early years education and for all those who care about the future of our young children and the world in which they are growing up

forest school is now implemented across a wide range of settings both nationally and internationally and this book explores the global similarities between the forest school approach and how natural spaces are being used all over the world

seminar paper from the year 2020 in the subject pedagogy school pedagogics grade 10 university of münster language english abstract this essay tries to give an insight into the way forest schools work and wants to highlight the value of outdoor learning the foundation of forest schools is added upfront to get a first impression on the origin of forest schools then i state the development and the key principles of forest schools furthermore i take a closer look at the learning environment to give an understanding of the structures and the resulting risks and challenges of a forest school session to connect the given theory with a practical example the fourth chapter deals with two exemplary sessions to conclude the last chapter revolves around different perspectives on forest schools and what impact they have on society in the end i summarize the main points and give an outlook all in all this paper assists the reader to open up to new possibilities of teaching and learning with less focus on a strict curriculum

a beautiful full colour book by forest school expert and teacher sara knight that inspires and encourages individuals of all ages to take an innovative approach to outdoor play and learning the images throughout the book bring alive forest school activities and each chapter is accompanied by creative ideas for practice and in depth case studies from across the united kingdom and ireland exploring the amazing variety of nature provision coverage includes rural and urban day nurseries for very young children state and independent provision for early years and primary schools secondary school intervention strategies for students with special education needs and disabilities how to support parents and families with forest school supporting people with mental health issues suggestions for further reading at the end of chapters will be a helpful guide for students to read around the topic whether you're training to become a teacher or already working in the outdoor classroom this book demonstrates how forest school approaches are enriching learning opportunities for children young people and adults and deepening their connections with the natural world with spectacular results sara knight will be discussing key ideas from forest school in practice in the sage early years masterclass a free professional development experience hosted by kathy brodie

this easy to read series provides an introduction to some of the most important early years philosophies and shows how they can be incorporated into your setting each book provides an outline of the background to the approach clear explanations of the relevance to contemporary thinking suggestions to help you plan a successful learning environment examples of what the individual approach can look like in practice these convenient guides are essential to early years practitioners students and parents who wish to fully understand what each approach means to their setting and children how has forest school helped to change attitudes about risk and challenge in the early years what are the benefits of using this approach for children's development health and overall wellbeing bringing the forest school approach to your early years practice provides an accessible introduction to forest school practice it identifies the key issues involved in setting up running and

managing a forest school environment and offers clear guidance on resources staffing and space required for successful play and learning outdoors including links to the early years foundation stage and a wide range of case studies the book covers the beginnings of forest school and how practice has developed child centred play and learning that allows for risk taking and challenge planning for children's individual needs learning styles and schemas the learning environment the role of the adult including health and safety and children's welfare full of practical advice this convenient guide will help practitioners to deliver new exciting and inspiring opportunities for the children they care for

this highly novel volume reframes the popular yet sorely under theorised international education movement known as forest school offering an interdisciplinary framework with which to set apart forest school from other outdoor education programmes and child led pedagogies by broadly defining forest school as regular repeated unstructured practice in nature the book is able to link the established uk centred understanding of the practice to other similar international movements that share the same scandinavian inspired principles such as those in germany the united states canada south korea and new zealand among others centred around three central pillars which demonstrate how forest school may be viewed through three alternative onto epistemological lenses chapters engage with data by writing diffractively through these three concepts and with the key posthuman eco philosophical and new materialist theories that relate to them the book ultimately argues that it is the forest itself and the quiet intra relationship that develops which is the integral keystone of the practice of forest school this perspective challenges historical human centred thinking which has long constrained our understanding of the profound connections between humans and the natural world offering a new appreciation of the quiet power of forest school and an understanding of it as a significant emergent pedagogical practice this book will be of interest to scholars researchers and postgraduate students involved with forest school early childhood education the philosophy of education and theories of learning more broadly

this book is a complete guide to forest school provision and nature pedagogy and it examines the models methods worldviews and values that underpin teaching in nature cree and robb show how a robust nature pedagogy can support learning behaviour and physical and emotional wellbeing and importantly a deeper relationship with the natural world they offer an overview of what a forest school programme could look like through the year the essential guide to forest school and nature pedagogy provides real life examples from a variety of contexts sample session plans and detailed guidance on using language crafting and working with the natural world this accessible resource guides readers along the forest school path covering topics such as the history of nature education our sensory system in nature forest school ethos and worldview and playing and crafting in the natural world guiding practitioners through planning for a programme including taking care of a woodland site and preparing all the essential policies and procedures for working with groups and nature this book is written by dedicated forest school and

nature education experts and is essential reading for settings schools youth groups families and anyone working with children and young people

a beautiful full colour book by forest school expert and teacher sara knight that inspires and encourages individuals of all ages to take an innovative approach to outdoor play and learning the images throughout the book bring alive forest school activities and each chapter is accompanied by creative ideas for practice and in depth case studies from across the united kingdom and ireland exploring the amazing variety of nature provision coverage includes rural and urban day nurseries for very young children state and independent provision for early years and primary schools secondary school intervention strategies for students with special education needs and disabilities how to support parents and families with forest school supporting people with mental health issues suggestions for further reading at the end of chapters will be a helpful guide for students to read around the topic whether you're training to become a teacher or already working in the outdoor classroom this book demonstrates how forest school approaches are enriching learning opportunities for children young people and adults and deepening their connections with the natural world with spectacular results

emphasising the importance of continuity for young children the outdoor classroom ages 3-7 practically demonstrates how early years settings and schools can maximise the learning potential of the outdoor environment fully updated to take into account the revised eyfs and key stage 1 curricula and including new case studies throughout this second edition encourages teachers and practitioners to examine and reflect on their use of the outside area to ensure they provide rich play opportunities for children that will further their learning regardless of time space or financial restraints drawing on the forest school approach this handy text considers the practical implications for settings using the outdoor classroom and covers the characteristics of effective learning outdoors guidance on timetabling and planning advice on the logistics and health and safety involved tips for navigating parental and staff opposition closely linked theory and practice to assessment the social and emotional aspects of learning full of resources lesson plans and activities to support rich learning opportunities this book will inspire you to think creatively about the outside area and use its full potential to bring the outdoors alive with interest exploration and challenge

outdoor learning continues to play an essential role in early years education and this new edition of a bestselling book explores how the forest school approach can be easily and effectively incorporated into early years practice expanding on aspects of forest school teaching and drawing on new developments and policy changes within the field this new edition also includes a new chapter on working with parents greater coverage of the 0-2 age range new case studies to aid learning coverage of international approaches to forest school yet again sara knight
