for readers of no cure for being human and simple self care for therapists a witty and compassionate field guide to the 10 realms of grief and how to navigate them yourself and with clients how do you practice good therapy when it s the end of the world as we know it and no one feels fine the planet is burning friends and family are falling to cults and qanon and we re all living through the collective trauma of a global pandemic among therapists and healers burnout is rampant hopelessness and despair are too in the grieving therapist psychotherapists larisa garski lmft and justine mastin lmft give voice to the difficulties of therapsing in today s world and offer a grief informed framework for taking care of yourself as you take care of others informed by narrative internal family systems fanfic and trauma sensitive therapy garski and mastin examine what it means to be a therapist at the end of the world or what feels like it they break down 10 realms of grief

that are critical to understand and work with today but likely weren't taught to you in therapy school each chapter includes grieving tools that can be adapted for both client and therapist tips for supervisors and supervisees skills for maintaining healthy outside the office relationships support for current therapy students and therapists new to the field advice on how to hold space and work with clients who have the same questions and are navigating the same issues as you meditations on love life death and connection garski and mastin also share helpful guidance around working with clients whose social or political beliefs differ from yours when therapeutic self disclosure makes sense honoring the information that countertransference is trying to give you and how to sit with or step away from triggers in your work with humor compassion irreverence and more than a little whimsy the grieving therapist shows you how to show up for yourself and your clients in your own full humanity amidst it all

the expectations and living conditions of our society are uniquely unrealistic and destabilizing producing a techno precarious performance self that markets itself as a product gets addicted to almost anything and drives itself to exhaustion

the 1 english language bestseller in china the book that is shaping china's planning and policy for the future a gray rhino is a highly probable high impact yet all too often neglected threat kin to both the elephant in the room and the improbable and unforeseeable black swan gray rhinos are not random surprises but occur after a series of warnings and visible evidence the bursting of the housing bubble in 2008 the devastating aftermath of hurricane katrina and other natural disasters the new digital technologies that upended the media world the fall of the soviet union all were evident well in advance why do leaders and decision makers keep failing to address obvious dangers before they spiral out of control drawing on her extensive background in policy formation and crisis management as well as in depth interviews with leaders from around the world michele wucker shows in the gray rhino how to recognize and strategically counter looming high impact threats filled with persuasive stories real world examples and practical advice the gray rhino is essential reading for managers investors planners policy makers and anyone who wants to understand how to profit by avoiding getting trampled

a market is really an amazing place if it is used in a good way there are many books on trading and investing but this is the monthly based report on where will market of indian sub continent will head on helpful to get inside view of the market with help of our experience for retail nri hni fii clients or any other market enthusiast akfintech xyz

it is now 12 years since the first reports of aids and the disease has become a pandemic of devastating proportions despite the enormous social emotional and economic costs some rays of hope are now visible biomedical research into the problems presented by the disease has gained considerable momentum the discovery of the etiologic agent the human immunodeficiency virus hiv in the mid 1980's has resulted in massive efforts to characterize

the organism in addition the development of new therapies is under intense study and anti viral and immunomodulating drugs are showing some efficiency in preliminary testing to date attempts to produce a protective vaccine have been only partially successful but these investigations are continuing unabated and we can remain cautiously optimistic that these tremendous efforts may yield some promise in the medium if not short term period in compiling this volume the authors have aimed to review key topics in the fast moving field of hiv research and provide the reader with easy access to current literature and trends in experimentation

his latest case puts them to the ultimate test
