gathers selections from the analects of confucius grouped by subject following the order of the i ching

world philosophies is a comprehensive survey of the world's philosophical and religious traditions by one of our foremost religious thinkers. Ninian Smart discusses notable figures such as Plato and Kierkegaard in the West, the Buddha and Mao Zedong in Asia, Tempels and Knibanga in Africa, and Royce in America, covering a wide range of topics including Indian ideas of testimony and evidence, Chinese notions of moral development, Buddhist concepts of cosmology, and Latin American critiques of materialism. Smart sheds new light on the astonishing diversity of philosophies that have developed throughout history.

Translated, edited, and introduced by Edward Y. J. Chung, *The Great Synthesis of Wang Yang-ming: Neo-Confucianism in Korea* by Chong Chedu Hagok is the first study in a Western language of Chong Chedu Hagok (1649–1736) and Korean Wang Yang-ming Neo-Confucianism. Hagok was an eminent philosopher who established the unorthodox Yangming School, Yangmyonghak, in Korea. This book includes an annotated scholarly translation of the Chonon Testament, Hagok's most important and interesting work on Confucian self-cultivation. Chung also provides a comprehensive introduction to Hagok's life, scholarship, and thought, especially his great synthesis of Wang's philosophy of mind, cultivation, and moral practice in relation to the classical teaching of Confucius and Mencius, and his critical analysis of Zhu Xi Neo-Confucianism and its Songnihak tradition. Chung concludes that Hagok was an original scholar in the Songnihak School, a great transmitter and interpreter of Yangming Neo-Confucianism in Korea, and a creative thinker whose integration of these two traditions inaugurated a distinctively Korean system of ethics and spirituality. This book sheds new light on the breadth and depth of Korean Neo-Confucianism and serves as a primary source for philosophy and East Asian studies in general and Confucian studies and Korean religion and philosophy in particular.

The teachings of Confucius are arranged in accordance with the 64 hexagrams of the I Ching. Each of the 64 sections presents the reading from his I Ching commentary and on the opposite page selections from his Analects.

Since John Esposito published his first book nearly 40 years ago, he has been guiding readers beyond misleading and dangerous stereotypes of Muslims. The essays in this volume highlight the contributions of scholars from a variety of disciplines who like Esposito present Islam as a multi-faceted and dynamic tradition embraced by

communities in globally interconnected but substantially diverse contexts over the centuries
