home to the uk s largest refinery fawley is among the most at risk parts of the country for petrochemical fires its fire service is vital to the area s infrastructure and its firefighters must always be prepared for the first time the story of this fire station and of the waterside s private and military fire brigades is told from establishment in the early twentieth century through the development of the fire engine and firefighting techniques to combating modern day terrorist threats fawley s firefighters have witnessed it all this book looks at how the station and its crew now reduced from full to part time staffing have evolved in the face of new dangers and challenges

more complex and imposing than any other vehicle in the british emergency services the fire engine has a long and interesting history the earliest water pumps had been developed by the eighteenth century basic manual pumps that had to be hauled around by people or horses and were often only used on fire insured premises in the nineteenth and twentieth centuries horse drawn steam powered fire engines and eventually motorised fire engines came to revolutionise firefighting offering far greater versatility and the brigades came to be run by the municipalities in this beautifully illustrated introduction eddie baker charts the history of fire engines and their variants and the increasingly complex equipment they have carried such as high rise ladders and high pressure hoses he also explains the wider history of the fire service and how the engines have been shaped by its needs and most importantly those of the firefighters themselves
