noted teachers and scholars William J. Duiker and Jackson J. Spielvogel present a balanced, highly readable overview of world history that explores common challenges and experiences of the human past and identifies key patterns over time. Thorough coverage of political, economic, social, religious, intellectual, cultural, and military history is integrated into a chronological framework to help students gain an appreciation and understanding of the distinctive character and development of individual cultures in society. This approach with organization around seven major themes—science and technology, art and ideas, family and society, politics and government, earth and the environment, religion and philosophy, and interaction and exchange—helps students link events together in a broad comparative and global framework, thereby placing the contemporary world in a more meaningful historical context. Available in the following options: World History, Eighth Edition, Chapters 1–30, Volume I to 1800; Chapters 1–18, Volume II since 1500; Chapters 14–30. Important notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Students of Western civilization need more than facts; they need to understand the cross-cultural, global exchanges that shaped Western history to be able to draw connections between the social, cultural, political, economic, and intellectual happenings in a given era and to see the West not as a fixed region but a living, evolving construct. These needs have long been central to the making of the West. The book's chronological narrative emphasizes the wide variety of peoples and cultures that created Western civilization and places them together in a common context, enabling students to witness the unfolding of Western history, understand change over time, and recognize fundamental relationships.

Krieg ist eine auditive Extremerfahrung und gehört zu den lautesten Ereignissen der Menschheitsgeschichte. Die Geräusche der Waffen, die Klänge von Signalinstrumenten, die Rufe der Kämpfenden und die Schreie von verwundeten Menschen und Tieren machen militärische Kampfhandlungen zu einer Ausnahmesituation. Aber auch Bewegungsgeräusche, Stimmen und Musik auf Märschen im Heerlager oder im Besatzungsgebiet gehören zur Soundscape des Krieges. Die spezifische akustische Dimension eines Krieges prägt die Kriegserfahrungen der Beteiligten. Bestimmte Sounds schreiben sich in die kollektiven Erinnerungen ein. Die Beiträge dieses Bands nehmen erstmals den Sound des Krieges, die Belliphonie, in den Blick. Im historischen Längsschnitt von der Antike bis in die Gegenwart sie fragen danach, wie und warum sich der Sound des Krieges im Laufe der Geschichte wandelte und wie er wahrgenommen, gedeutet und erinnert wurde. Mit dem Begriff Sound bezeichnen sie
