manipulative communication from early twentieth century propaganda to today's online con artistry examined through the lens of social engineering the united states is awash in manipulated information about everything from election results to the effectiveness of medical treatments corporate social media is an especially good channel for manipulative communication with facebook a particularly willing vehicle for it in social engineering robert gehl and sean lawson show that online misinformation has its roots in earlier techniques mass social engineering of the early twentieth century and interpersonal hacker social engineering of the 1970s converging today into what they call masspersonal social engineering as gehl and lawson trace contemporary manipulative communication back to earlier forms of social engineering possibilities for amelioration become clearer the authors show how specific manipulative communication practices are a mixture of information gathering deception and truth indifferent

statements all with the instrumental goal of getting people to take actions the social engineer wants them to yet the term fake news they claim reduces everything to a true false binary that fails to encompass the complexity of manipulative communication or to map onto many of its practices they pay special attention to concepts and terms used by hacker social engineers including the hacker concept of bullshitting which the authors describe as a truth indifferent mix of deception accuracy and sociability they conclude with recommendations for how society can undermine masspersonal social engineering and move toward healthier democratic deliberation

through the first hand experiences of pilots and ground crew the author of javelin boys chronicles the history of the raf s first jet engined aircraft as britain s first jet fighter the gloster meteor has had a remarkably varied and lengthy life but while many books have focused on its development and service history the time has come to hear the personal experiences of its air and ground crews by interviewing over thirty veterans author and meteor veteran steve bond has written an incredibly detailed insight into this iconic aircraft which is supported by anecdotes and accounts from those who knew it best one example is alan mcdonald who described the meteor as a bit unforgiving if you got it wrong as many pilots found out to their cost especially on one engine but i must admit i got to like it very much it was a great adrenaline rush alongside these entertaining anecdotes are details of the meteor s origins and developments starting with the first deliveries in 1944 working through to the present day bond documents the diverse role that the meteor has had from operations against the v1 and photo reconnaissance missions to its use as a training machine and later as a display aircraft the book also features photographs never seen before in print this detailed history of this iconic and much loved jet fighter will appeal to all aviation fans bond has done a great job with this book with many personal accounts of the people that were involved every day in the life of the meteor highly recommended international plastic modelers society usa
