our century had been in every sense incredible when it began britain ruled a world wide empire and the united states played a little part in international affairs no man had flown in a powered aircraft or listened to a radio few haad ridden in a motor car or seen a moving picture medical skill was so rudimentary that the removal of an appendix was a very dangerous undertaking the vast majority of people were poor insecure and dominated by the ruling classes

this is the story of american change how the very nature of the colonies determined a particular kind of science and invention how this science and invention reacted on american life to change it how this changed america made new and different demands on science and invention and was again changed until after one hundred and seventy five years of this interplay of action and reaction of constant change we find ourselves here today we look at each other some of us satisfied some of us not and wonder how we got that way this book is my answer to that question mitchell wilson
