the management and balancing of social environmental and economic sustainability is one of the most complex and urgent challenges facing both private and public sector organizations today with these challenges of sustainability posing many risks to and many opportunities for advancing the aims and performance of organizations accounting and accountability processes and practices provide key tools to help organizations to more effectively identify and manage the risks and opportunities of sustainability popular features from the first edition are retained whilst recent developments in theory and practice are accounted for new substantive chapters on water resource accounting carbon accounting and decision making have been introduced and the book continues to benefit from a host of expert contributors from around the world including jesse dillard rob gray craig deegan this comprehensive and authoritative textbook will continue to be a key resource for students of accounting and sustainability as well as being a vital tool for researchers

this textbook provides a comprehensive guide to accounting theory and aims to improve the readers capacity to think critically about accounting and accounting challenges it is intended for accounting students who are enrolled in an accounting theory course as well as those who want to pursue postgraduate accounting studies namely a phd this textbook starts with an explanation of what accounting is followed by its history and conceptual framework before tying accounting to research subsequently seven theories of accounting are selected and introduced as the accounting research community has made substantial use of these theoretical frameworks in this textbook too applications of accounting theory to previous studies are provided

this exciting book is one of the first textbooks in the fast growing area of sustainability accounting contributed to and edited by an impressive array of internationally renowned authorities it focuses on the use of sustainability accounting both as an external accountability mechanism external reporting and as a tool for helping managers assess and manage the social and environmental impacts of their operations management accounting using real life examples and case studies to emphasize the links between the conceptual basis and issues in practice this outstanding book addresses the growing interest among both practitioners and

academics in social environmental and ethical accountability as interpreted through the lens of sustainable development

given the increased social and environmental problems in china this book looks into the social and environmental disclosure practices of socially responsible chinese listed firms by constructing a stakeholder driven three dimensional disclosure index the book contains a three part study the first part explores the current status of social and environment disclosure practices the second part empirically examines the relationship between corporate social and environmental disclosure and various influencing factors i e stakeholders power and corporate characteristics the third part empirically examines the link between corporate social responsibility csr reporting i e publishing a csr report and the quality of the csr report and socially responsible reputation the book finds that the csr report provided more stakeholder relevant social and environmental disclosure than the annual report it also finds that corporate characteristics such as firm size profitability and industry classification are all statistically significant factors influencing the social and environmental disclosure of the chinese firms studied shareholders significantly influenced firms social and environmental disclosure and creditors significantly influenced firms disclosure related to their environmental performance the final part of the study reports that publishing a csr report and csr reporting quality had a positive influence on firms socially responsible reputations and that the ceo chairman duality negatively influenced firms socially responsible reputation this book will be of interest to those who are keen to learn more about corporate social responsibilities in the context of chinese firms

in recent years corporate social responsibility csr reporting in china has been experiencing a rapid development and the number of social reports issued by chinese enterprises shows a sharp increasing trend this book investigates the evolution of such reporting practice in the country and the reasons behind it in addition it also examines the reporting quantity and quality of chinese enterprises by applying the gri global reporting initiative as an evaluation tool in response to policy documents so as to obtain the government s recognition and to strive for more resources state owned enterprises private enterprises and foreign invested companies have made substantial efforts in social reporting in terms of quantity and coverage however it appears that there is still room for enhancing the quality of disclosure the book also highlights the central government s economic political and social roles in promoting encouraging and controlling the development of csr reporting

this book explores recent developments in the theory strategic perspective and international practice of corporate social responsibility in particular it discusses the consequences of the economic slowdown apparent in many economies and the impact of changes in the regulatory environment it consists of three parts part one addresses a variety of theoretical approaches as well as the dynamics and criticism of corporate social responsibility it takes into account social and governmental expectations for the new and extended role of companies in the economy and in society and provides a new context and theoretical assumptions regarding the functions and tasks of corporate social responsibility part two discusses the practical aspects relating to strategic management and corporate governance corporate disclosure and reporting as well as the empowerment of stakeholders lastly part three focuses on the international practice of corporate social responsibility in various organizational and institutional settings using numerous case studies the book explores the challenges and tasks of csr in emerging markets in the fashion industry and in global and family companies it identifies the changes that can be detected following the financial crisis closing the loop and linking the

empirical findings with the revised theoretical framework

this second edition of the market leading financial accounting text provides new zealand undergraduates with a thorough and comprehensive grounding in all aspects of financial accounting it aims to not only give undergraduates a firm grasp of the principles and application of financial accounting requirements but through the evaluation of rules and guidelines to develop students critical thinking and evaluation abilities a prerequisite to success in an accounting career
