volume 1a covers corporate finance how businesses allocate capital the capital budgeting decision and how they obtain capital the financing decision though managers play no independent role in the work of miller and modigliani major contributions in finance since then have shown that managers maximize their own objectives to understand the firm's decisions it is therefore necessary to understand the forces that lead managers to maximize the wealth of shareholders

this book provides a comprehensive summary of the latest academic research on the important topic of too big to fail tbtfs in banking it explains tbtfs from various perspectives including the range of regulatory measures proposed to counter tbtfs most notably the globally accepted regulation of global systemically important banks g sibs and its main tool of capital surcharges the empirical analysis quantifies the shareholder value of the g sib attribution by using quarterly observations from more than 750 global banks between q2 2008 and q3 2015 the main finding is that g sibs are confronted with a substantial relative valuation discount compared to non g sibs from the end of 2011 until the end of 2015 a stable discount of 0.6x 0.8x price to tangible common equity p tce is statistically highly significant the results suggest that the g sib designation effect which positively impacts g sibs share prices because of funding benefits from iggs is dominated by the regulatory g sib burden effect which negatively impacts g sibs share prices because of lower profitability due to capital surcharges and other regulatory requirements placed on g sibs the findings re open the debate about whether breaking up g sibs would unlock shareholder value and whether g sibs are regulated efficiently

the royal financial administration and the prosecution of crime in france 1670 1789 explores the french monarchy's role in financing criminal prosecutions in the royal courts of the realm the payment of criminal frais de justice in the vocabulary of the

ancien régime between 1670 and 1789 that is from the codification of criminal judicial procedure in the early period of Louis XIV's personal rule to the outbreak of the French Revolution the subject brings together three areas of scholarly inquiry criminal justice royal administration and the management of the crown's finances a central goal of the study is to provide factual information and interpretive insights on each of these topics and to explain the relationship of each to the others over a long time period the book contributes to existing scholarship in four ways first although each of the major dimensions of the inquiry the operation of the criminal justice system the conduct of the royal administration and the management of the monarchy's finances has a large and increasingly sophisticated historical literature this is the first study to combine them in a systematic way second the long time period covered in the book not only enables the historian to distinguish gradual from rapid change but it also allows the reader to view how the system functioned in different historical contexts third the study is based on archival sources throughout France this comprehensive approach permits the identification of elements of a common experience without sacrificing attention to important aspects of regional diversity finally with respect to the sources themselves the range is broad encompassing regulatory acts and decisions of the king's councils administrative correspondence at the central regional and in some cases local levels financial accounts and related papers and court records from the major appellate courts and from several lower courts as well an appendix of 33 tables lists figures of annual expenditure and other pertinent financial operations for each of the major financial districts of the kingdom
