english summary this volume describes the multifaceted history of western
christianity in the 12th and 13th centuries the church and monastic life were
undergoing a period of radical changes in which they participated in the political
economic and social developments affecting society in the high middle ages the
pluralization of spiritual life mirrored the dynamics of a time which redefined the
roles of laymen and of women the papal church succeeded only partially in
integrating the newly formed religious groups for the first time it became apparent
that there also was a christendom outside the church this excellent presentation
by heinrich holze refers extensively to chronicles biographies and contemporary
sources attempting to provide access to this era in its own language german
