in civilizing the child discourses of race nation and child welfare in america katherine s bullard analyzes the discourse of child welfare advocates who argued for the notion of a racialized ideal child this ideal child limited to white often native born children was at the center of arguments for material support to children and education for their parents this book illuminates important limitations in the progressive approach to social welfare and helps to explain the current dearth of support for poor children civilizing the child tracks the growing social concern with children in the nineteenth and early twentieth centuries the author uses seminal figures and institutions to look at the origins of the welfare state chapters focus on charles loring brace jacob riis residents of the hull house

settlement and the staff of u s children s bureau analyzing their work to unpack the assumptions about american identity that made certain children belong and others remain outsiders bullard traces the ways in which child welfare advocates used racialized language and emphasized the civilizing mission to argue for support of white native born children this language focused on the future citizenship of some children as an argument for their support and protection

modern state law excludes populations peoples and social groups by making them invisible irrelevant or dangerous in this book boaventura de sousa santos offers a radical critique of the law and develops an innovative paradigm of socio legal studies which is based on the historical experience of the global south he traces the history of modern law as an abyssal law or a kind of law that is theoretically invisible yet implements profound exclusions in practice this abyssal line has been the key procedure used by modern modes of domination capitalism colonialism and patriarchy to divide people into two groups the metropolitan and the colonial or the fully human and the sub human crucially de sousa santos rejects the decadent pessimism that claims that we are living through the end of history instead this book offers practical hopeful alternatives to social exclusion and modern legal domination aiming to make post abyssal legal utopias a reality

a social history of modern iran from below focused on subaltern groups and contextualised by developments within middle eastern and global history

over the past four decades the fear of crime has become an increasingly significant concern for criminologists victimologists policy

makers politicians police the media and the general public for many practitioners reducing fear of crime has become almost as important an issue as reducing crime itself the identification of fear of crime as a serious policy problem has given rise to a massive amount of research activity political discussion and intellectual debate despite this activity actually reducing levels of fear of crime has proved difficult even in recent years when many western nations have experienced reductions in the levels of reported crime fear of crime has often proven intractable the result has been the development of what amounts to a fear of crime industry previous studies have identified conceptual challenges theoretical cul de sacs and methodological problems with the use of the concept fear of crime yet it has endured as both an organizing principal for a body of research and a term to describe a social malady this provocative wide ranging book asks how and why fear of crime retains this cultural political and social scientific currency despite concerted criticism of its utility it subjects the concept to rigorous critical scrutiny taking examples from the uk north america and australia part one of inventing fear of crime traces the historical emergence of the fear of crime concept while part two addresses the issue of fear of crime and political rationality and analyses fear of crime as a tactic or technique of government this book will be essential reading on one of the key issues in government and politics in contemporary society

new york s newsboys tells the engaging tale of how social reformer charles loring brace and his colleagues built new york s children s aid society cas in the nineteenth century seizing on the idea of using newsies boys who hawked penny newspapers on the city streets to promote his new charity brace saw the kids as symbolic of the rapidly increasing population of uneducated immigrant youth roaming the streets eking out a subsistence living under dire conditions the newsies were both heralded as shrewd entrepreneurs and

feared as potential members of the dangerous class to new york's wealthy class brace touted the benefits of helping these children while warning of the social and political dangers of neglecting them attacked during his life for his dangerous ideas and bold actions among brace's earliest experiments was the newsboys lodging house (nblh) opened in 1853 the nblh quickly grew beyond providing for the lodgers basic needs into a well rounded social service program offering education vocational training health care employment referrals and other services its policies and practices were forged from staff interactions with the earliest lodgers colorful characters like the professor fatty valise and dutchy by 1855 nblh efforts were yoked to other branches of cas service through its central office including the controversial emigration branch known as the orphan trains using primary documents and analysis of over 700 original cas case records extra offers a new look at the foundational roots of social work and child welfare in the united states it makes broad claims about the breadth and depth of cas efforts arguing that its significance to the history of the profession the city of new york and the country has been under appreciated charles loring brace laid down the foundations for progressive era reformers in areas as wide ranging as child welfare juvenile justice public education and public health his efforts hold lessons for today's social justice workers who face challenges similar to those of mid nineteenth century new york

throughout history the powerful have created laws developed agencies to enforce those laws and established institutions to punish lawbreakers maintaining the social order to their advantage resulted in the systematic repression of disadvantaged groups the dangerous classes the third edition retains a historical approach to exploring patterns of social control and through current examples demonstrates how those strategies continue today the authors trace the roots of race class and gender bias in how laws are written

interpreted and applied the management of dangerous classes is not a recent phenomenon there is a long history of keeping those who derive the least advantage from the status quo and therefore pose the greatest threat under control there was and is one system of justice for the privileged and a very different system for the less privileged the criminal justice system from the law to daily operations of the police courts and corrections generally comes down hardest on those with the least amount of power and influence and is the most lenient with those with the most power and influence the book raises critical questions what is a crime what is law whose interests are served by the law and the criminal justice system what patterns are repeated generation after generation how does the criminal justice system relate to larger issues such as social inequality social class race and gender contemplation of these topics contributes to informed public dialogue and careful deliberation about the present state and the future of criminal justice
