franklin d roosevelt pursued the u s presidency for more than 25 years he served in that office longer than any other person from 1933 until his death in 1945 to achieve the office of president of the united states fdr practiced deception on a grand scale he was a charming man when he wanted to be and he engaged the willing help of several specific individuals as well as many others in his quest for the presidency and in his successful execution of the duties of that office as president fdr steered the u s ship of state a deliberate metaphor through two of its greatest crises the great depression and world war ii roosevelt s war in doing so fdr more than any other person created the superpower that the united states is today this book will tell you how it all happened

in the 1890s assistant secretary of the navy theodore roosevelt led a campaign to modernize the navy paramount in roosevelt s vision was the creation of a fleet of modern steel hulled warships armed with the most powerful weapons available the future president and his intellectual soul mate captain alfred thayer mahan firmly believed that america s emerging global expansion would only reach its full potential through sea power the swift and overwhelming us victor in the spanish american war of 1898 vindicated the views of theodore roosevelt and captain mahan and marked the debut on the world stage of the modern us navy theodore roosevelt the u s navy and the spanish american war considers the impact roosevelt had on the us navy in general and how his reforms affected the course and outcome of the spanish american war in particular the nine contributors to this volume include leading historians and prominent naval officers from the us and spain with essays ranging from the roosevelt family s naval heritage to the impact of the spanish american war on enlisted forces in the navy this work is a major contribution to our understanding of theodore roosevelt and his navy

theodore roosevelt is an american icon his face carved in granite alongside those of washington jefferson and lincoln on mt rushmore he is the only american awarded both the medal of honor and nobel peace prize as president he pushed through a stubborn congress to breakup corporate monopolies strangling the economy impose health standards on the food and drug industries and conserve america s natural heritage including the grand canyon and redwood forest he was a brilliant diplomat who ended a war between japan and russia and prevented a war between germany and france he engineered independence for the province of panama from columbia then signed a treaty

with the new country that entitled the united states to build run and defend a panama canal he crusaded for progressive reforms as a new york assemblyman u s civil service commissioner new york city police commissioner and new york governor he led scientific expeditions across east africa s savanna and brazil s rainforest during the war with spain he raised a cavalry regiment and led his rough riders to a decisive victory at san juan heights as a dakota rancher during the frontier s twilight he squared off with outlaws and renegade indians he was a prolific writer authoring 38 books and hundreds of essays roosevelt was among the most charismatic presidents yet although most americans adored him most wall street moguls and political bosses hated him for his reforms he was complex simultaneously peacemaker and warmonger progressive and conservative machiavellian and kantian avid hunter and nature lover roosevelt accomplished all that he did because he mastered the art of american power his motto speak softly and carry a big stick exemplified how he asserted power to defend or enhance american interests time after time he bested such titans as j p morgan or kaiser wilhelm at the game of power although he is the subject of dozens of books this is the first to comprehensively explore just how roosevelt understood massed and wielded power to pursue his vision for an america as the world s most prosperous just and influential nation

although theodore roosevelt has been the subject of numerous books there has not been a single volume that traces roosevelt s interaction with the u s navy from his work as a naval historian in the 1880s through his leadership of the navy as president in the early twentieth century the editors of this volume fill in this gap in the historical literature each essay in this collection by leading historians of american naval history will cover one aspect of roosevelt s relationship with the navy while addressing the unifying theme of his use of history and america s naval heritage to advocate for strengthening and modernizing the navy during his own lifetime in addition to the book editors contributors are sarah goldberger james r holmes david kohnen branden little jon scott logel edward j marolda kevin d mccranie matthew oyos jason w smith and craig l symonds

between 1867 the year of the alaskan purchase and the beginning of world war i russian and american dignitaries diplomats businessmen writers tourists and entertainers crossed between the two countries in surprisingly great numbers concord and conflict provides the first comprehensive investigation of this highly transformational and fateful era in russian american relations excavating previously unmined russian and american archives norman saul illuminates these fifty significant and open years of association between the

two countries he explores the flow and fluctuation of economic diplomatic social and cultural affairs the personal and professional conflicts and scandals and the evolution of each nation's perception of the other

a sharp analysis of the similarities differences and impact of the presidencies of franklin roosevelt and ronald reagan two iconic figures representing polar opposites of twentieth century american politics

in the late 1930s a number of american women especially those allied with various peace and isolationist groups protested against the nation's entry into world war ii while their story is fairly well known margaret paton walsh reveals a far less familiar story of women who fervently felt that american intervention was absolutely necessary paton walsh recounts how the united states became involved in the war but does so through the eyes of american women who faced it as a necessary evil covering the period between 1935 and 1941 she examines how these women functioned as political actors even though they were excluded from positions of power through activism in women's organizations informal women's networks and even male dominated lobbying groups in the great debate over whether america should enter the war some women favored aid to the allies not because they hoped for war but because they hoped aid would forestall more direct u.s. involvement but also because they believed war was preferable to a nazi victory paton walsh shows that this activism involved some of the most prominent women of their day elizabeth cutter morrow whose son in law charles lindbergh was an isolationist spokesman supported the revision of the neutrality acts to allow the sale of arms to the allies and expressed her support in a national radio broadcast soon other women joined this debate esther brunauer of the aauw journalist dorothy thompson and organizations like the league of women voters and national women's trade union league broke from the pacifist tradition to advocate american aid for the allied cause focusing on the conflict in europe paton walsh shows how these women grasped the implications of the lend lease program for america's entry into the war but supported it nevertheless by late 1941 the women's division of the fight for freedom committee had been established no longer merely advocating aid to britain to keep american boys out of battle this organization supported direct american involvement in the war as a means of stopping nazi oppression while most historians have focused on women's pacifism paton walsh connects women more directly to world events and shows how those interventionists reformulated maternalist ideas to justify and explain their beliefs our war

too is a story of american women trying to reconcile the irreconcilable to preserve both their principles and their peace it expands our understanding of women as political actors and thinkers about foreign policy as it sheds new light on american public opinion over the build up to the war
