integrating technological innovations into our daily lives has helped to modernize and improve the way we learn the way we do business the way we communicate with one another and ultimately the way we live but in these modern times which some refer to as the electronic gadgets and app age it has become difficult to know everything about the old and new electronic devices that continue to make the wheels of industry turn in society new innovations appear and then just as quickly become antiquated and obsolete technological advances from the past blend with the present and then like ripples in a lake fade in this fast paced world how can anyone hope to keep up with those changes the breadth of knowledge required is daunting but technology impacts the choices we make for better or worse revolutionary technologies educational perspectives of technology history covers what has been invented who invented what and how technology has made our lives more efficient enjoyable and meaningful

it has been said that the only asset that a lawyer has is time but the reality is that a lawyer s greatest asset is information the practice and the business of law is all about information exchange the flow of information travels in a number of different directions during the life of a case a client communicates certain facts to a lawyer the lawyer assimilates those facts and seeks out specialised legal information which may be applicable to those facts in the course of a generation there has been a technological revolution which represents a paradigm shift in the flow of information and communication collisions in the digital paradigm is about how the law deals with digital information technologies and some of the problems that arise when the law has to deal with issues arising in a new paradigm

what is xml xml or extensible markup language is a specification for storing information it is also a specification for describing the structure of that information and while xml is a markup language just like html xml has no tags of its own it allows the person writing the xml to create whatever tags they need the only condition is that these newly created tags adhere to the rules of the xml specification in the seven years since the first edition of xml visual quickstart guide was published xml has taken its place next to html as a foundational language on the internet xml has become a very popular method for storing data and the most popular method for transmitting data between all sorts of systems and applications the reason being where html was

designed to display information xml was designed to manage it xml visual quickstart guide 2nd edition is divided into seven parts each part contains one or more chapters with step by step instructions that explain how to perform xml related tasks wherever possible examples of the concepts being discussed are displayed and the parts of the examples on which to focus are highlighted the order of the book is intentionally designed to be an introduction to the fundamentals of xml followed by discussions of related xml technologies
