the pace at which technology changes has created unique challenges in the integration of such technologies into language teaching and learning innovative pedagogies and strategies must be developed that adapt to these changes and accommodate future technological changes recent developments in technology enhanced and computer assisted language learning is an essential research publication that focuses on technological influences on language education and applications of technology in language learning courses including foreign and second language learning featuring an array of topics such as artificial intelligence teacher preparation and distance learning this book is ideal for teachers language instructors it specialists instructional designers curriculum developers researchers education professionals academicians administrators practitioners and students

with the breakout of covid 19 the current decade has brought a plethora of challenges and opportunities requiring a significant shift in our lives most importantly in the area of education throughout most of 2020 the pandemic presented many issues requiring us to broaden our thinking and harness our creativity to develop and adopt solutions at that time the sudden shift did not leave us much time to reflect on these changes we are now in a time of great innovation within english for academic purposes eap contexts to this end the volume shares the experiences and reflections of different stakeholders including eap practitioners teacher trainers assessment specialists and educational leaders and their response to the unexpected challenges and opportunities brought about by the pandemic the chapters specifically focus on how the pandemic has influenced and shaped our lives and future plans in the creation of our new normal

this book advocates that teachers should play an active role in high stakes language testing and that more weight should be given to teacher judgement this is likely to increase the formative potential of high stakes tests and provide teachers with a sense of ownership the implication is that the knowledge and skills they develop by being involved in these tests will feed into their own classroom practices the book also considers the arguments against teacher involvement e g the contention that teacher involvement might entrench the practice of teaching to the test or that teachers should not be actively involved in high stakes language testing because their judgement is insufficiently reliable using contributions from a wide range of international educational contexts the book proposes that a lack of reliability in teacher judgement is best addressed by means of training and not by barring educators from participating in high stakes language testing it also argues that their involvement in testing helps teachers to bolster confidence in their own judgement and develop their assessment literacy moreover teacher involvement empowers them to play a role in reforming high stakes language testing so that it is more equitable and more likely to enhance classroom practices high stakes language tests that adopt such an inclusive approach facilitate more effective learning on the part of teachers which ultimately benefits all their students
