in his fourth edition of *Éléments d'économie politique pure* 1900 león walras introduced the device of written pledges to eliminate path dependency sellers of products and services write out commitments to supply certain quantities at suggested prices with no commodities actually produced and supplied until a set of prices is found at which supply and demand are equal simultaneously in every market this brought about very serious alterations to the character of the book unfortunately these changes resulted in an incomplete internally contradictory and occasionally incoherent text this translation therefore by two leading scholars of león walras work donald a walker and jan van daal revisits the third edition of this seminal work including walras brilliant explanation of his comprehensive model with all its richness derived from reality growing research into walras work indicates that it was this third edition that contained his best theoretical research and a translation of this edition of the book is now a necessity

the second volume on christianity in china covers the period from 1800 to the present day dealing with the complexities of both catholic and protestant aspects

praise for the fourth edition i think this volume is a good textbook and if i were teaching a research methods subject i would consider using it as a core text the extensive study aids are a particularly attractive aspect of the book as a teaching pool

qualitative research journal the continually updated and expanded investigating the social world now in its fifth edition is written so that the doing of social research is closely and consistently linked to important social issues demonstrating not only the value of research but also how technique and substance are intimately related the text offers guides for critiquing research articles exercises for applying research skills and the examples of analyzing and reporting social data provide instructors with key supports for effective teaching ethical concerns and ethical decision making are treated in tandem with each study of specific methods and an emphasis on how to do research is joined with an equal emphasis on giving students the critical skills necessary to evaluate research done by others

chesley s hypertensive disorders in pregnancy continues its tradition as one of the beacons to guide the field of preeclampsia research recognized for its uniqueness and utility hypertensive disorders remain one the major causes of maternal and fetal morbidity and death it is also a leading cause of preterm birth now known to be a risk factor in remote cardiovascular disease despite this the hypertensive disorders remain marginally studied and management is often controversial the fourth edition of chesley s hypertensive disorders in pregnancy focuses on prediction prevention and management for clinicians and is an essential reference text for clinical and basic investigators alike differing from other texts devoted to preeclampsia it covers the whole gamut of high blood pressure and not just preeclampsia features new chapters focusing on recent discoveries in areas such as fetal programming genomics proteomics and angiogenesis includes extensive updates to chapters on epidemiology etiological considerations pathophysiology prediction prevention and management discusses the emerging roles of metabolic syndrome and obesity and the increasing incidence of preeclampsia each section overseen by one of the editors each chapter co authored by one of the editors ensuring coherence throughout book
