This is an open access book. The 3rd Universitas Lampung International Conference on Social Sciences (ULICOSS 2022) is an international conference organized by the Institute for Research and Community Services, Universitas Lampung, Indonesia. The event took place on 6th-7th September 2022 in Bandar Lampung City on the Indonesian island of Sumatra. This event will adopt a hybrid working model combining an in-person event with an online meeting via Zoom. Attendees and presenters are expected to interact in this way using technology to connect to global networks, as has been widely stated in the literature. A number of reports and papers have examined the pandemic's negative effects, with the majority of work to date focusing on COVID-19's negative impact on psychological well-being. Thus, social adjustment is required for resilience in order to adapt to and change in the face of adversity. In other words, it is clear that social adjustment, which includes the specific behaviors and abilities that people use to deal with daily problems and adapt to changing circumstances, is critical for global resilience today. As such, this international conference, which will feature five invited keynote speakers from the Czech Republic, Hungary, Indonesia, and Japan, is intended to serve as a forum for the dissemination of specific alternative and significant breakthroughs in rapid social adjustments for global resilience, with an emphasis on global society, social welfare, and development, and innovative communication among other topics. Therefore, we invite scholars, academics, researchers, experts, practitioners, and university students to participate and share perspectives, experiences, and research findings by submitting papers on a variety of topics relevant to the conference's theme and scope. All abstracts and papers submitted for consideration will undergo a double-blind peer review process to ensure their quality, relevance, and originality.
