this volume is a meticulously researched text on pneumatology which puts the major pneumatological issues together without confining to the traditional way of dealing with the doctrine of the holy spirit although pneumatology has been a neglected field in theological discussions of the past there is a renewal of interest among theologians on pneumatology today this renewal of interest has led to the formation of this work on the role of the holy spirit in the protestant systematic theology through highlighting the role and significance of the holy spirit in the whole divine action this volume contends

that pneumatology is not a dull theological locus but rather an essential theological disposition relevant for today the detailed arguments found within challenge and inspire the contemporary pneumatological discussions as it relates to all the facets of theological reflection and action

academy of parish clergy top ten book theology is the doctrine of living unto god wrote the puritan theologian william ames unfortunately post enlightenment theology has tended to divorce doctrine from living unto god and to the degree that this split has been deepened and perpetuated both theology and spirituality have been impoverished spiritual theology is a rare book in it simon chan surveys the little explored landscape where systematic theology and godly praxis meet highlighting the connections between christian doctrine and christian living and drawing out the spiritual implications of particular aspects of systematic theology allowing rational formulations to drop into the background he brings the mystery of the faith to the fore chan begins with the principal doctrines of god sin salvation and the church he then progresses to a reflective consideration of the practice of the spiritual life from prayer to spiritual direction unabashedly evangelical and truly ecumenical chan grounds his exploration in the sources of the protestant catholic and orthodox traditions his work is well abreast of contemporary theological currents and crossculturally conversant from an asian perspective spiritual theology is a book for those who care deeply about theology and spirituality and strive to integrate the two it is well worth careful reflection and prayerful reading

a compact discussion of the holy spirit in christian theology written by a leading expert in the field

one of the most exciting recent developments in theology has been an unprecedented interest in the person and work of the holy spirit in fact veli matti karkkainen describes this phenomenon as a pneumatological renaissance but such discussion should be informed he contends by two overarching principles first we must acknowledge the variety of approaches to the experience of the holy spirit ecumenically no church can claim a monopoly on the spirit and no tradition is specifically spirited second talk about the spirit must always be contextual and therefore culture specific the spirit of god indwells believers and creation in specific and tangible ways working from this perspective the book introduces readers to pneumatology the theology and spirituality of the holy spirit in current international theology as such the work offers a biblical historical and theological assessment of the third person of the trinity however unlike most textbooks on pneumatology karkkainen takes a fresh innovative approach rather than focusing on any single topic his aim is to chart the various territories of contemporary writings and reflections on pneumatology consequently the volume examines various theological and denominational understandings of the spirit all major christian traditions are reviewed assesses key contemporary theologians of the spirit e g pannenbergt moltmann and pinnock and inquires into several contextual approaches e g liberation feminist and green these distinctives and the emphasis on the contemporary global scene make this a unique volume an up to date survey of the most noteworthy and theologically pregnant orientations to the spirit in the worldwide ecumenical and intercultural scene this work will guide readers in discerning the holy spirit s activity at the beginning of the third millennium discusses ecumenical international and contextual pneumatologies ecumenical emphasis ranges from eastern orthodox to pentecostal charismatic international scope gives voice to african and latin american perspectives covers major pneumatologies provides a comprehensive bibliography

wayne grudem s systematic theology is required reading in many courses on biblical theology and with good reason the

textbook's emphasis on the scriptural basis for each doctrine along with its clear writing and contemporary approach make it an indispensable resource for many Christians. This series presents as a separate book each of the seven main parts that make up the 1,600 page systematic theology, making it more portable, affordable, and less daunting. Part 4, *Making Sense of Christ and the Spirit*, explores Jesus Christ as fully God and fully man in one person. Important topics include the person of Christ, including the virgin birth, uniting full deity and humanity in one person while enabling Christ's humanity to be without inherited sin; and the incarnation, the act of God the Son whereby he took himself a human nature. The doctrine of the atonement, the work Christ did in his life and death to earn our salvation; Jesus' resurrection and ascension, affirming the goodness of God's original creation of man as a creature with a physical body that was very good and his rightful place in glory and honor that had not been his before; as the God-man, written in a friendly tone appealing to the emotions and the spirit as well as the intellect. *Making Sense of Christ and the Spirit* helps readers overcome wrong ideas, make better decisions on new questions, and grow as Christians.

This is a study of spirit christology, a contemporary theological model of the relationship between Jesus Christ and the Holy Spirit. Del Colle measures this christological model against trinitarian theology and tests its viability. He investigates in particular the development of a Roman Catholic spirit christology which has arisen from within the modern neo-scholastic theological tradition. Contrary to other interpreters, Del Colle argues that an incarnational christology and a spirit christology are not conflicting but complementary, and that this is recognized by the older and deeper tradition. In conclusion, he seeks to demonstrate the productivity of the spirit christological model in reference to three major areas of concern for contemporary systematic theology: cultural pluralism and diversity, emancipation and social praxis, and inter-religious dialogue.

This book studies the Holy Spirit through the lens of both biblical and systematic theology.

*Life in the Spirit* is the third volume of Thomas Oden's systematic theology. It considers the presence of the Holy Spirit in history and his power in the lives and communities of present-day believers.

Explains the doctrine of the Holy Spirit in relation to the Trinity, the Old Testament, and the New Testament. Provides a theological grasp of the Holy Spirit and instruction on why he matters for the Christian life.

in the last half of the 20th century a consensus emerged that christian theology in the western tradition had failed to produce a viable doctrine of the holy spirit and that augustine s trinitarian theology bore the blame for much of that failure this book offers a fresh rereading of western trinitarian theology to better understand the logic of its pneumatology ables studies the pneumatologies of augustine and karl barth and argues that the vision of the doctrine of the spirit in these theologians should be understood as a way of talking about participating in the mystery of god as a performance of the life of christ he claims that for both theologians trinitarian doctrine encapsulates the grammar of the divine self giving in history the function of pneumatology in particular is to articulate the human reception and enactment of god s self giving as itself part of the act of god this self involving logic is the special grammar of the doctrine of the holy spirit
